COMMITTEE OF EXPERTS ON THE TRANSPORT OF DANGEROUS GOODS AND ON THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

Sub-Committee of Experts on the
Transport of Dangerous Goods

Thirty-fifth session
Geneva, 22 - 26 June 2009
Item 5 of the provisional agenda

MISCELLANEOUS PROPOSALS OF AMENDMENTS TO THE MODEL REGULATIONS ON THE TRANSPORT OF DANGEROUS GOODS

Amendment to the proposal in ST/SG/AC.10/C.3/2009/6

Transmitted by the International Organization for Standardization (ISO)

1. It has been pointed out that in the proposal which ISO submitted in ST/SG/AC.10/C.3/2009/6, the reference to the competent authority does not specify which competent authority should be responsible for approving the repairs. Logically, the competent authority to undertake such approval is the one specified in the definition of *Approval system* in 6.2.2.6.1. That is, the competent authority which gives "approval of a body performing periodic inspection and test of pressure receptacles . . . including approval of that body's quality system". The amended proposal shown below corrects the deficiency with the new text being shown underlined.

Amended Proposal

2. In paragraph 6.2.2.4 insert the following new row in the table.

ISO 10460:2005	Gas cylinders – Welded carbon-steel gas cylinders – Periodic inspection and testing ***NOTE:*** *Repairs described in clauses 12.1 and 12.2 of this standard require the approval of the competent authority which approved the periodic inspection and test body in accordance with 6.2.2.6.*
