MINISTRY FOR FOREIGN AFFAIRS OF FINLAND

Aid for Trade project in Central Asia

UNDP vision - inclusive growth

1. Focus to shift from growth to patterns of growth
2. Growth inducing strategies do not have necessarily an impact on equality
3. Impact of globalisation of trade and price competiveness

Sustainable Development Goal 8 of Agenda 2030
Promotion of sustained, inclusive, and sustainable growth, full and productive employment, and decent work for all
Outcomes of Strategy
Integrated Planning for Inclusive and Sustainable Growth
Employment Creation, Decent Work, and Redistributive Programmes

Jobs
Equality

Bringing innovations

Identify sustainable, labour intensive products with a high export capability;

UNCTADs Green Product Space methodology to identify competiveness;

- Product comparative advantage for exporting;
- Identify products that are deemed green using the WTO core group of green goods.

In addition, UNDP will use the following layers to identify labour intensive products:

- Labour intensive value chains;

Which products

Products that have demonstrated:

1. High comparative advantage for exporting;
2. Products that are green and including but not limited to technologies;
3. Products that are labour intensive to ensure social inclusion and a good impact spread.

Green & profitable

Small – green- profitable

Small – green - profitable
