Работа ОЭСР в Армении в рамках ДНП. Володя Нариманян

The UNECE-supported National Policy Dialogues on IWRM programme assist governments of the countries of Eastern Europe, the Caucasus and Central Asia in promoting implementation of the IWRM in line with the principles of the UNECE Water Convention, the Protocol on Water and Health, the EU Water Framework Directive and other UNECE and European Union instruments.

National Policy Dialogues on IWRM are the main operational instrument of the European Union Water Initiative (EUWI), an international partnership that aims at contributing to the achievement of the water related Millennium Development Goals. The United Nations Economic Commission for Europe (UNECE) is the strategic partner to support the policy dialogue process on integrated water resources management. The Organization for Economic Co-operation and Development (OECD) is the strategic partner for water supply and sanitation.
