www.unece.org/forests/fpm/onlinedata.html

The Forestry and Timber Section has a long-standing tradition of extensive data collection. Below are outputs for some of the current programmes of recurring statistical work.

Forest Resources

Forest Resources Assessment (with FAO)
- FAO Forest Resources Assessment 2010
  - Global
  - Country Reports
- FAO Forest Resources Assessment 2005
  - Global
  - Europe and North America
- UNECE/FAO TBFRA 2000

State of Europe's Forests (with MCPFE)
- 2011 State of Europe's Forests
- 2007 State of Europe's Forests and national reports
- 2003 State of Europe's Forests

Forest Products

Production and Trade
- Selected production and trade data for 2009-2013 (statistical annex to Forest Products Annual Market Review)
- Current (complete data for 2007-2011) or in PDF or XLS
- Complete database, all years, all products - ENG, RUS (data for 1964-2012), updated February 2014
- FAOSTAT (queryable forestry database)
- Forecasts (2013-2014)

Trade Flow, showing value of trade by product group for all regions and between leading countries
Trade by Species
Secondary Products Trade (2005-2009) in PDF or XLS
Prices, including historical data from 1964-2014
FAO Yearbook of Forest Products, all years since 1947

Wood Energy

There have been three Joint Wood Energy Enquiries (JWEE) carried out by the UNECE/FAO on wood energy use in the region. The results and accompanying analysis have been presented at the 34th, 32nd, 31st and 29th meetings of the Joint FAO/UNECE Working Party on Forest Statistics, Economics and Management. The actual data can be found here
