www.unece.org/trans/danger/publi/ghs/pictograms.html

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

The pictograms hereafter are based on the latest revised edition of the GHS. For further information on the allocation of GHS label elements, refer to Annex 1 to the GHS. To consult the official text of the GHS follow "Legal instruments and recommendations->GHS->GHS official text and corrigenda" on the left menu.

To download the pictograms, right-click on the formats under each picture and select ***Save Target As...***

Notes:
GIF files are in RGB.
For CMYK colours use the file "label" (the "label"format is a TIF file with a 45°-rotated picture for direct label printing).
The pictograms are only available in the formats displayed hereafter.
