

ECONOMIC COMMISSION FOR EUROPE

INLAND TRANSPORT COMMITTEE

Working Party on the Transport of Dangerous Goods
(Seventy-seventh session, agenda item 5,
Geneva, 25-28 October 2004)

SPECIAL REQUIREMENTS CONCERNING THE TRAINING OF DRIVERS

Subject to be covered by the basic course in 8.2.2.3.2 (n)

Transmitted by the Government of Sweden

In the ADR 2005, paragraph 8.2.2.3.2 (n) there is a new subject to be covered by the basic course for the training of drivers:

“8.2.2.3.2 (n) Instruction on behaviour in tunnels (prevention and safety, action in the event of fire or other emergencies, etc.).”

Swedish training providers have asked what this new subject regarding behaviour in tunnels shall include.

Sweden would like to inform the WP.15 meeting that we, after consulting our Nordic colleagues, will find it reasonable to base this part of the education on the leaflet “Safe driving in road tunnels for professionals” produced by the European Commission Directorate-General for Energy and Transport (see the links below or the attached copy in English). The leaflet is covering prevention and safety as well as action in the event of fire or other emergencies.
