GENEVA TIMBER AND FOREST DISCUSSION PAPER 61

FORECAST OF THE COMMITTEE ON FORESTS AND FOREST INDUSTRY: FOREST PRODUCT PRODUCTION AND TRADE 2012-2014

UNITED NATIONS

Geneva, 2013

Note

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Abstract

Following the annual Market Discussions of Committee on Forests and the Forest Industry (former Timber Committee) about the current and next year's forest products markets, the Committee issues a statement which includes: overview of the forest products sector, developments in specific forest product market sectors, sawn softwood and sawn hardwood, wood-based panels, wood raw materials including wood energy, pulp and paper, certified forest products and tables summarizing forecasts in Europe, North America and Russia. The Committee also collects data on over 30 individual products for most countries in the UNECE region.

Keywords

forecast, fibreboard, forest products, lumber, logs, OSB, particleboard, plywood, panels, pulp and paper, roundwood, sawnwood, veneer, wood energy, wood particles, wood pellets

INTRODUCTION

This publication includes forecasts for the current and next year's forest products markets submitted to the annual Market Discussions of the Committee on Forests and the Forest Industry (COFFI), which was formerly known as the Timber Committee (prior to 2013). It provides the forward looking data to go along with the analysis contained in the Market Statement, which is issued at the COFFI meeting. The forecasted data covers the major forest products of the three subregions of the UNECE Region (Europe, Commonwealth of Independent States and North America). This PDF format, Excel data tables and the COFFI Market Statement are available from the COFFI Market Forecast website at:

<http://www.unece.org/forests/fpm/timbercommittee.html>

TERMS AND DEFINITIONS USED

“Apparent consumption” is calculated by adding a country's production to imports and subtracting exports. "Net trade" is calculated as exports minus imports. European totals include the countries of Estonia, Latvia and Lithuania as well as Israel, Malta, Turkey and Cyprus.

The term “softwood” is used synonymously with “coniferous” wood and “hardwood” is used synonymously with “broadleaved” and “non-coniferous” wood.

In the tables, countries are not shown when all of the data is zero or is not available. Minor differences between the text of the market statement and the tables are due to the fact that some figures in the tables were changed after the drafting of the market statement.

NOTES

Polish removals data do not include trees outside the forest. Polish trade data exclude non-reporters (estimated at 1-3% of total).

United Kingdom production figures for OSB are not published.

For tables 1-12c, data in italics are secretariat estimates or repeated data. All other data are from national sources and are of course estimates for the current and future year.

Countries with nil, missing or confidential data for all years on a table are not shown.

^a Pulpwood, round and split, as well as chips and particles produced directly
 therefrom and used as pulpwood
^b Pulpwood, poles, piling, posts etc.
^c Including chips and particles produced from wood in the rough and used for energy purposes
^a Bois de trituration, rondins et quartiers, ainsi que plaquettes et particules fabriquées directement à partir des rondins et quartiers et utilisées comme bois de trituration
^b Bois de mine, poteaux, pilotis, piquets etc.
^c Y compris plaquettes et particules fabriquées à partir du bois brut et utilisées à des fins énergétiques
