eTIR

Differences between the data contained in message E9 and national data requirements for the TIR procedure

Agenda item 3 (b)

André Sceia

Informal Ad hoc Expert Group on Conceptual and Technical Aspects of Computerization of the TIR Procedure
23rd session
20-21 November 2013

Outline

- Background
- Comparison
- Additional requirements

Background

- ACI is mandatory for TIR in various countries

- First comparison by Finland between the IE15 message and the E9 message (Informal document GE.1 No. 1 (2010))

- First comparison between E9 and national data requirements (Informal document GE.1 No.5 (2013))

- 22nd session: GE.1 requested the secretariat to ask eTIR focal points if their country has any specific additional requirements

- Informal document GE.1 No.9 (2013)

Comparison

Class.Attribute	Austria	Belgium	Hungary	Poland
Message.Date	R	R	R	R
Message.Message reference number	-	R	R	R
Message.Type, coded	R	R	R	R
Message.Message function, coded	-	-	-	R
Message.Total gross weight	R	R	R	O
ADDITIONALINFORMATION.Remarks	O	-	-	O
ADDITIONALINFORMATION.Heavy and bulky goods indicator	-	-	-	-
AGENT.Code	-	-	-	R
AGENT.Role, coded	-	-	-	-
AMENDMENT.Amendment code	-	-	-	-
POINTER.Sequence number	-	-	R	R
POINTER.Document/message section, coded	-	-	-	R
POINTER.Tag identifier	-	-	-	-
SUBCONTRACTOR.Name	-	D	-	-

Additional requirements - France

Class.Attribute
HEADER Document/reference number
HEADER Amendment place
HEADER Amendment place LNG
HEADER Date of amendment
CTL_CONTROL Amendment type flag
GUARANTEE.Currency
GUARANTEE.Amount Concerned

Additional requirements - Hungary

Class.Attribute	Format	Definition
CUSTOMSOFFICEOFTRANSIT.Code	an..8	In NCTS it is optional to fill in box Customs office of transit. E.g. before HR joined to the EU but they have already been the member of the Transit Convention and use NCTS application, HU entry customs office was the transit office itself in NCTS procedure.
REPRESENTATIVE.Name	an..35	Optional. If there is a representative person who handles transit procedure, the data of this person can be registered as well.
REPRESENTATIVE.Capacity	an..35	
UNLOADINGLOCATION.Code	an..35	In NCTS, it is mandatory to fill in box unloading location when safety and security data are registered in transit declaration as well (based on CCC Annex 30a). Otherwise it is optional.
GUARANTEE.Validity limitation	a2	Guarantee data are mandatory in case of starting NCTS transit procedure. In NCTS/TIR, guarantee data are: •Guarantee code 'B' signs as 'TIR' guarantee • Number of TIR Carnet • Guarantee amount
GOODSMEASURE.Net mass	n..11,3	In NCTS it is mandatory to fill in box Net mass.

Additional requirements

- WCO SAFE data elements have been added to the eTIR data model and messages
- Additional security related data elements are still required by countries
- **Should they be added?**
