Schenker Oy

**A CLEAR AND VERY IMPORTANT MUST IN FINLAND!**

# e-TIR 10 years ago

# e-TIR today

## **Schenker Finland**

**Nr. 1 applying computerized electronic import custom's clearances**

**Authorized consignee and consignor**

**Among the first doing electronic transitdocuments in NCTS**

**Pilotcompany in electronic Exportclearances**

**Among the first making Mou-agreements with our custom's**

**Among the first partners with our custom's**

**Nr. 2 as an AEOF in Finland ( first Schenker-house in Europe )**

**Schenker Oy had already as number 1 a permit for electronic handling of TIR-Carnet.**

**The permit was canceled by ourselves as we had no benefits of it.**

**Again applied 2.3.2010 and will get permit Nr. 1 as we now can have benefits as the permit for unloading can be confirmed to us electronically without visiting Custom's at this stage. Permit got 4.3.2010!**

**After unloading closing the TIR-Carnet manually in our nearest Custom's house.**

**Big benefits of electronizing:**

- NO NEED OF COURIERS TO GO TO THE NEAREST CUSTOM'S HOUSE WHICH MIGHT BE A LONG WAY AWAY FROM OUR OFFICE**
- SAVING OF TIME, ABLE TO DELIVER JUST ON TIME**
- LESS MISTAKES USING ELECTRONIC TABLOIDS**
- BETTER FOLLOW-UP OF QUALITY**
