**Correction to ECE/TRANS/WP.11/2015/7**

**Note by the secretariat**

Correct Comment 1 as follows

"Comment 1:

Minor and limited modifications in this context mean added accessories like load securing rails, wheel arches, lamps etc. which reduce locally the amount and thickness of the insulating material compared to the reference equipment. Reducing the insulating thickness overall, ~~by adding like~~ like a whole wall or door, shall not be regarded as minor and limited modifications."
