Freight Volumes

Freight Volumes

'000 tones

Revenue

'000 GEL

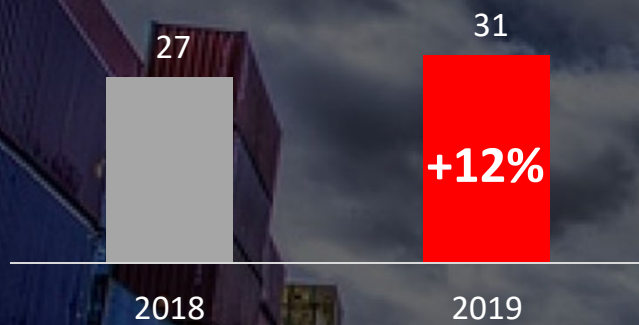

We are only country in the region who have a **Free Trade Agreements** with members of Commonwealth of Independent Countries, **European Union, Turkey** and **China**

Passenger Transportation

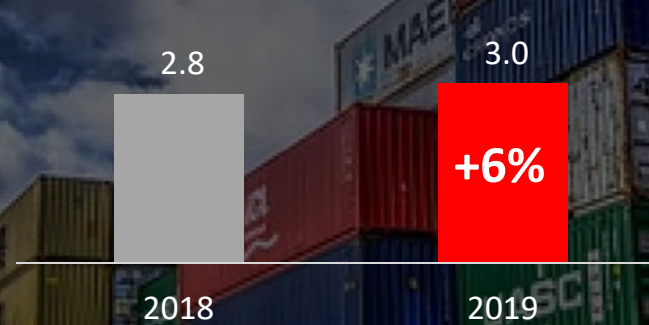

Revenue

mln. GEL

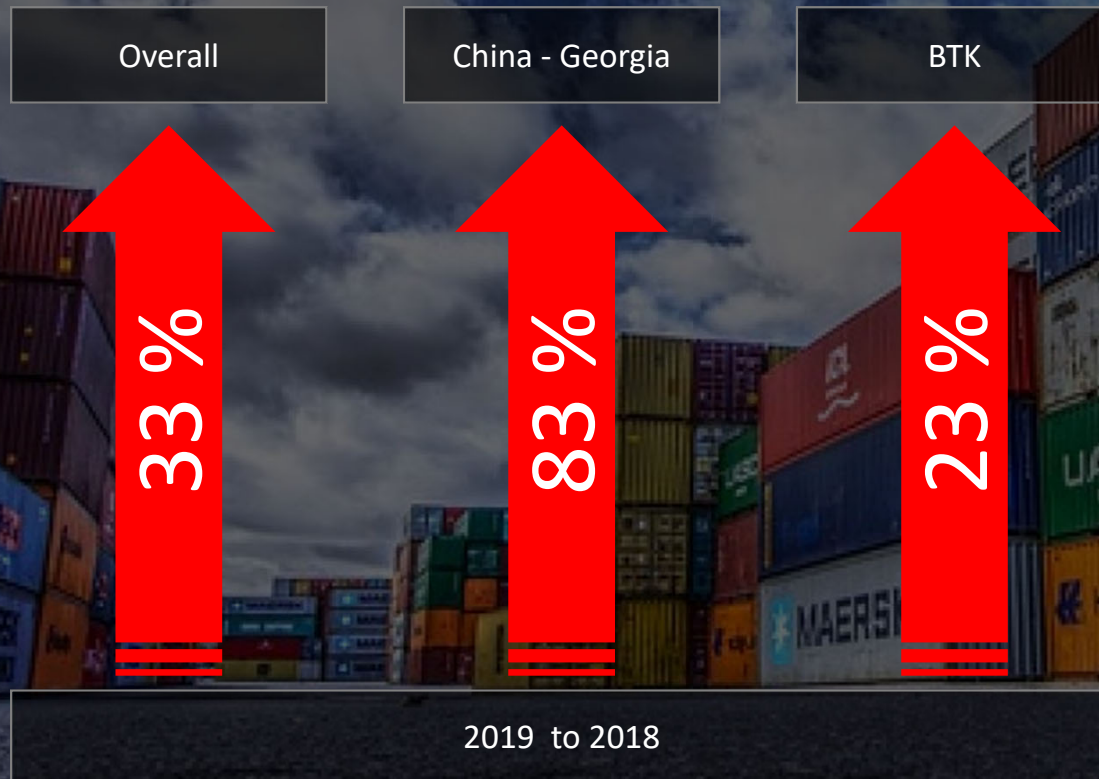

Passenger Transportation

mln. Pass.

This figures are **Historical Maximum for Georgian Railway's passenger SBU**

Highest numbers of containers handled by Georgian Railway

GR received the first container train from China in 2015

Technical Problem

- Transshipment
- Changing Gauge

Documental Problem

- CIM
- SMGS

Using common CIM/SMGS consignment note will decrease the time needed for matching the documents on 1 block train from **7 hours** to **1 hour**

Advantages of the system:

- **“One Window”** principle is more convenient for clients;
- Transparency of on-going customs processes, as well as information to clients is provided via online portal;
- Removal of material documentation for local freight transportation and replacement of them with electronically signed legal analogues (**PDFs**);
- Data archiving, **security**, reliability and access **flexibility** when needed;

More than **90%** of the Modernization project is completed. Expected to be finished in **2020**

- Increase capacity from **27** to **48** million tons
- Decrease Transportation time on mainline from **5** to **3** hours

Feeder service directly connecting Yuzhny, **Ukraine** and Poti, **Georgia**

It decreases transit time from **12 days** down to **2 days**

Feeder service directly connecting Constanta, **Romania** and Batumi, **Georgia**

A long freight train with colorful containers (yellow, blue, red) on tracks. The train is moving away from the viewer. The tracks are made of concrete and steel. The background is a hazy, overcast sky. The text "Georgia is emerging as Eurasian trade hub" is overlaid on the image in white and red.

Georgia is emerging as Eurasian trade hub
