B. JUSTIFICATION

1. Currently the installation requirements are only recommended in Annex 15 to the Regulation No. 69, 02 series of amendments.
 2. At present no installation requirements exist in Regulation No. 86 for the retro-reflective rear marking plates for slow moving vehicles (by construction) and their trailers (Regulation No. 69, 01 and 02 series of amendments).
 3. By adding the requirements in a new paragraph 6.17. to Regulation No. 86, Governments will be in a position to make the use of these marking plates mandatory on all agricultural vehicles in their respective legislation in view of enhancing road safety.
