

**Informal document N° 20**

(Final version)  
(84th GRSG, 5-9 May 2003  
agenda item 11.4)

**OICA PROPOSAL FOR A DRAFT ADDENDUM TO THE PROPOSAL FOR DRAFT  
REGULATION ON HEATING SYSTEMS**

**Document TRANS/WP29/GRSG/2002/11/Add.1**

**A. PROPOSAL**

Annex 5, amended paragraph 2, delete the words “or passenger”, i.e. amend to read:

- “2. The surface temperature of any part of the heating system likely to come into contact with any driver ~~or passenger~~ of the vehicle during normal road use shall be measured with a contact thermometer. No such part or parts shall exceed a temperature of 70 °C for uncoated metal or 80 °C for other materials.”

Annex 5, amended paragraph 2.1, amend to read:

- “2.1. In the case of ~~exposed part or~~ parts of the heating system ~~outside the passenger compartment~~ **behind the driver's seat**, and in the case of overheating, the temperature shall not exceed 110°C.”

**B. JUSTIFICATION**

Alignment on EC Directive 2001/56/EC
