Informal Document No. **WP.29-147-03**
(147th WP.29, 10 - 13 March 2009
agenda item 4.2.5.)

Proposal for Corrigendum to document ECE/TRANS/WP.29/2009/15

The modification to text is based on document ECE/TRANS/WP.29/2009/15 submitted for adoption to WP.29 and AC.1 by the Working Party on Lighting and Light-Signalling. To avoid a discrepancy between documents ECE/TRANS/WP.29/2009/14 and ECE/TRANS/WP.29/2009/15, both addressing Regulation No. 7, the latter document should be aligned, under its point 6.1.3.1., with the prior one. An editorial correction is therefore inserted in "**bold character**".

A. PROPOSAL

Paragraph 6.1., the table, the row corresponding to paragraph 6.1.3.1., first column, correct to read:

"**R** or R 1 steady"

B. JUSTIFICATION

The "R" marking was re-introduced in the Regulation, and, it should remain allowed as an alternative to the "R 1" marking as in document ECE/TRANS/WP.29/2009/14.
