(62nd GRE, 6 - 9 October 2009,
agenda item 5(d))

Proposal for corrigendum to ECE/TRANS/WP.29/GRE/2009/20

In view of the corrigendum proposed to Regulation 48 Supplement 3 to the 04 Series, above, it is also necessary to introduce a corresponding amendment to the proposal in GRE/2009/20 as follows:

Paragraph 6.22.9.3., amend to read:

"6.22.9.3. The aggregate maximum intensity of the lighting units that can be energized simultaneously to provide the main-beam lighting or its modes, if any, shall not exceed ~~300,000 cd~~ **430,000 cd**, which corresponds to a reference value of ~~75~~ **100**.

This maximum intensity shall be obtained by adding together the individual reference marks indicated on the several installation units that are simultaneously used to provide the main-beam."
