

PROPOSAL FOR A CORRIGENDUM TO gtr No.6 (safety glazing)

A. PROPOSAL

Paragraph 6.2.3.3.1. Eight panes , amend to read:

" 6.2.3.3.1. Four panes for each point of impact "

B. JUSTIFICATION

The Informal Group of Safety Glazing gtr agreed to evaluate four panes for each point, as the test requirements for fragmentation shown in paragraph 5.5.1.1.6. as follows.

5.5.1.1.6. Test pieces

5.5.1.1.6.1. Four panes shall be tested from each point of impact and at least three shall meet the requirements.

“Eight panes” in paragraph 6.2.3.3.1. does not meet this requirements, and it seems to be a mistake to be corrected.
