

Proposal for amendments to ECE/TRANS/WP.29/2011/55

I. Proposal

The title of the document should read:

"Proposal for Supplement 4 ~~1~~ to the 01 ~~02~~ series of amendments to Regulation No. 94 (Frontal collision protection)"

II. Justification

The amendments to Regulation No. 94 proposed in document ECE/TRANS/WP.29/2011/55 were adopted by GRSP at its forty-eight session (ECE/TRANS/WP.29/GRSP/48, para.35). The intention of GRSP was to apply the provisions of the proposal to all the vehicles type approved in conformity with the Regulation and not only for electric vehicles, which are the object of the 02 series of amendments. Having this proposal as Supplement 1 to the 02 series of amendments will imply that the transitional provisions of the 02 series of amendments will also apply to this Supplement. The secretariat suggests this amendment to ensure that the provisions for the new labelling will apply at the entry into force of the Supplement without being delayed by the transitional provisions of the 02 series of amendments.
