

Proposal for amendments to ECE/TRANS/WP.29/GRSP/2015/25

The text of GRSP-58-06 was prepared by the expert from the Netherlands. Since sending the above mentioned document to Geneva (just before the dead line) some exchange of views and some extended experiments have taken place. This has resulted in two changes in the above mentioned document.

Change 1: The proposal for a new paragraph 2.14.7. concerning a “Flexible shoulder adjustment device for height” have been further improved; and

Change 2: The proposal to subject “Flexible shoulder adjustment devices for height” to a micro slip test has been withdrawn; so the proposal to extend par. 6.2.3.2. can be deleted.

These changes will be further explained during our presentation.
Hereby attached you will find the so adapted document.
