

Proposal for Supplement 1 to UN Regulation No. 137 and Supplement 1 to the 01 series of amendments to UN Regulation No. 137 (Frontal impact with focus on restraint systems)

Submitted by the expert from Japan

The text reproduced below was prepared by the expert from Japan. It introduces amendments to Regulation No. 137 (Frontal impact with focus on restraint system). The modifications to the existing text of the UN Regulation are marked in bold for new or strikethrough for deleted characters.

I. Proposal

Requirements

Annex.3, paragraph 5.2.4.1., amend to read:

"5.2.4.1. The axial compressive force ~~and the bending moments are~~ **is** measured with a CFC of 600."

II. Justification

It is not necessary to measure the bending moments of the femur in R137.
