Annex 4, Part A, Section II (Notification for L-IWVTA), shall be removed.

1. Paragraph 73 of the WP.29 report ECE/TRANS/WP.29/1145 indicates:
“73. The secretariat also introduced the new IWVTA functionality of the “343 app” (WP.29-177-21) expected to be rolled out before the application date of UN Regulation No. 0. This tool is deemed to serve as the unique means of notifications as per its para. 13.5.”
2. The secretariat proposes amending paragraph 13.5 of UN Regulation No. 0 to reflect that the new IWVTA functionality in the 343 application shall serve as the unique means of notification.

- 1 If a UN Regulation number is followed by an asterisk "*" this indicates that the respective requirement applies only if the corresponding system is fitted to the vehicle. This then means that for the purpose of a U-IWVTA both vehicles with or without this system are acceptable. However, where the system is fitted to the vehicle, the requirement applies. The same also applies to systems not identified by * where it can be demonstrated that the corresponding requirements are not applicable to the IWVTA type
- 2 The entry is understood as the required minimum, i.e. including all supplements in force at the time the approval is issued. Approvals to any later versions have to be equally accepted in accordance with paragraph 13.3. of this Regulation.
- #3 Either type approval of UNR 148 or the applicable type approval(s) of UN R4, 6, 7, 23, 38, 77, 87 and/or 91 is/are necessary.**
