About Resource Efficient and Cleaner Production Centre

RECP Centre started in 2013 within the framework of UNIDO project *“Promoting the Adaptation and Adoption of Resource Efficient and Cleaner Production (RECP) through the Establishment and Operation of a Cleaner Production Centre (CPC) in Ukraine”*.

The project has been supported by the governments of Switzerland and Austria.

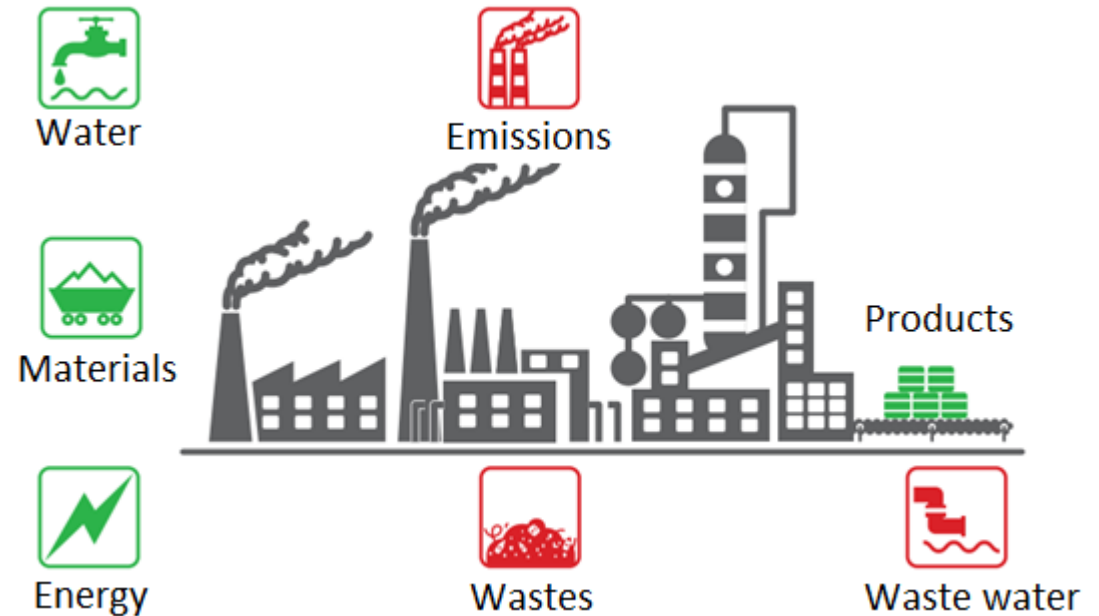

Objective:

To enhance efficiency, productivity, competitiveness and environmental performance of companies in Ukraine, especially SMEs, through the implementation of RECP methods, practices and technologies.

RECP method

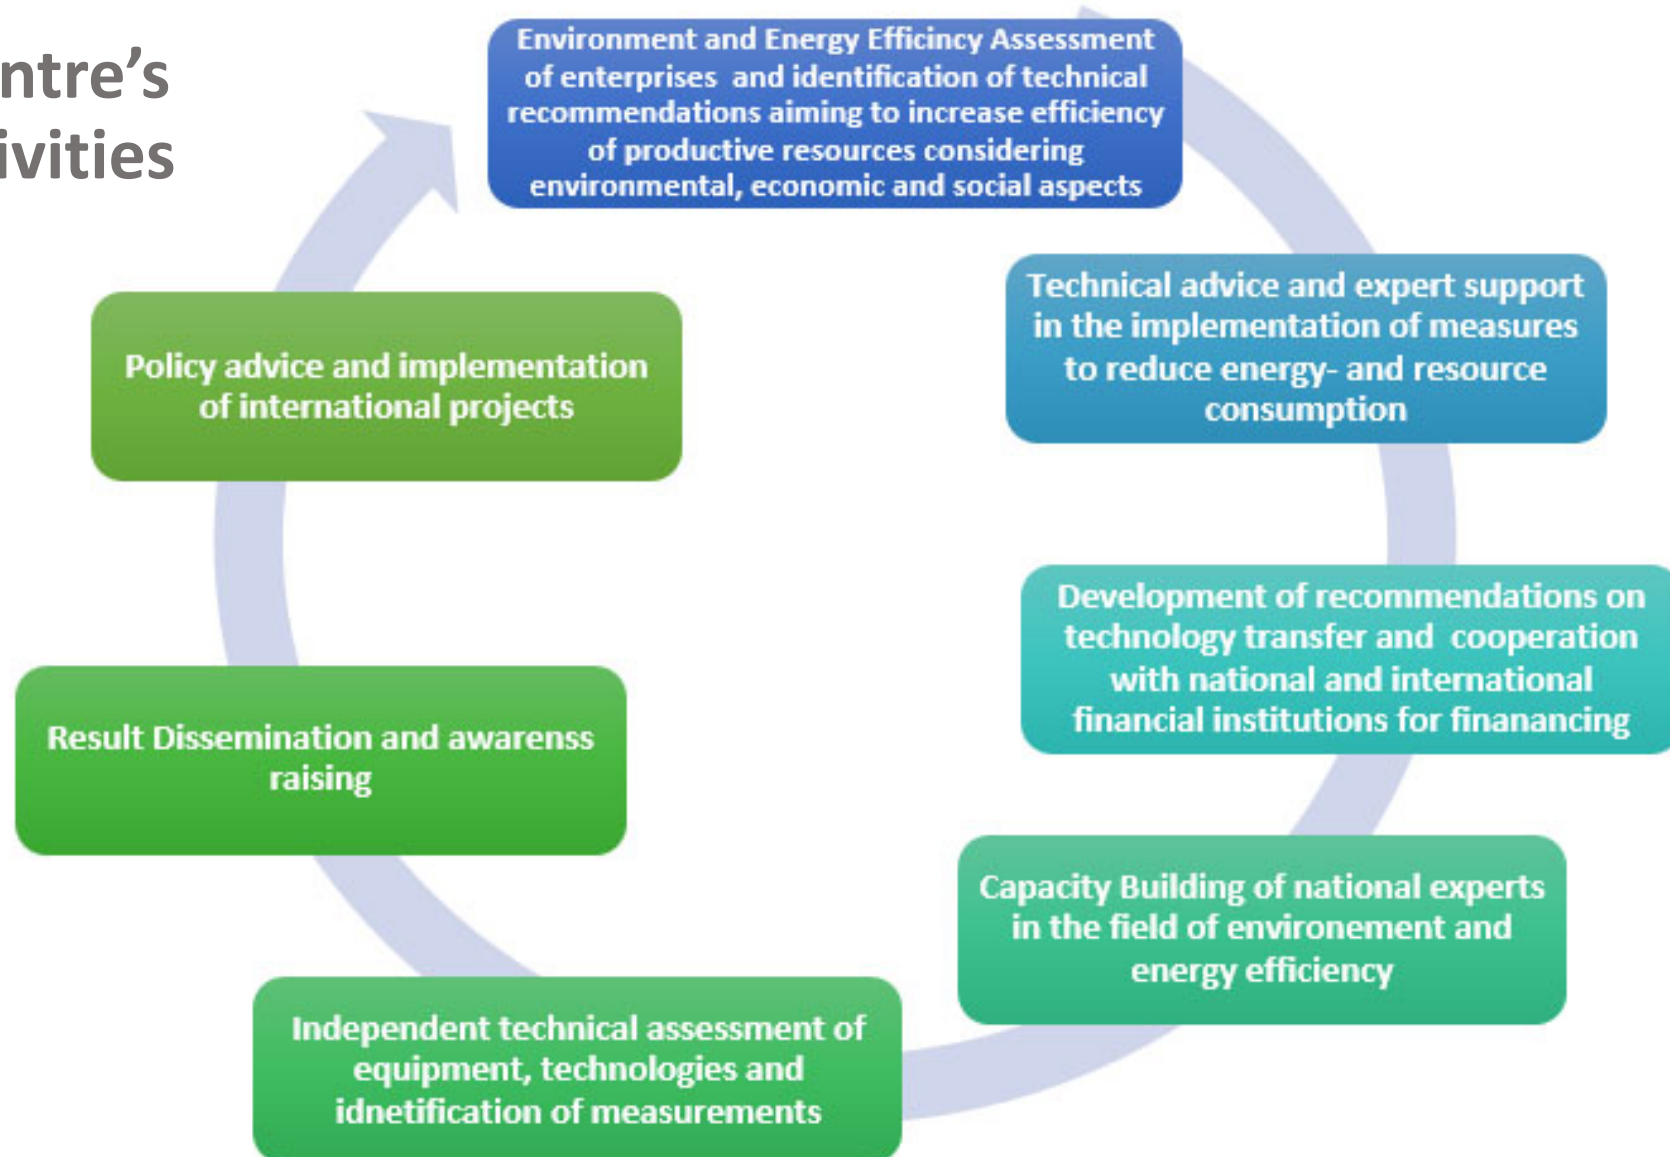

RECP method entails the continuous application of preventive environmental strategies to processes, products and services in order to increase efficiency and reduce risks to humans and the environment.

“Produce more, consume less”

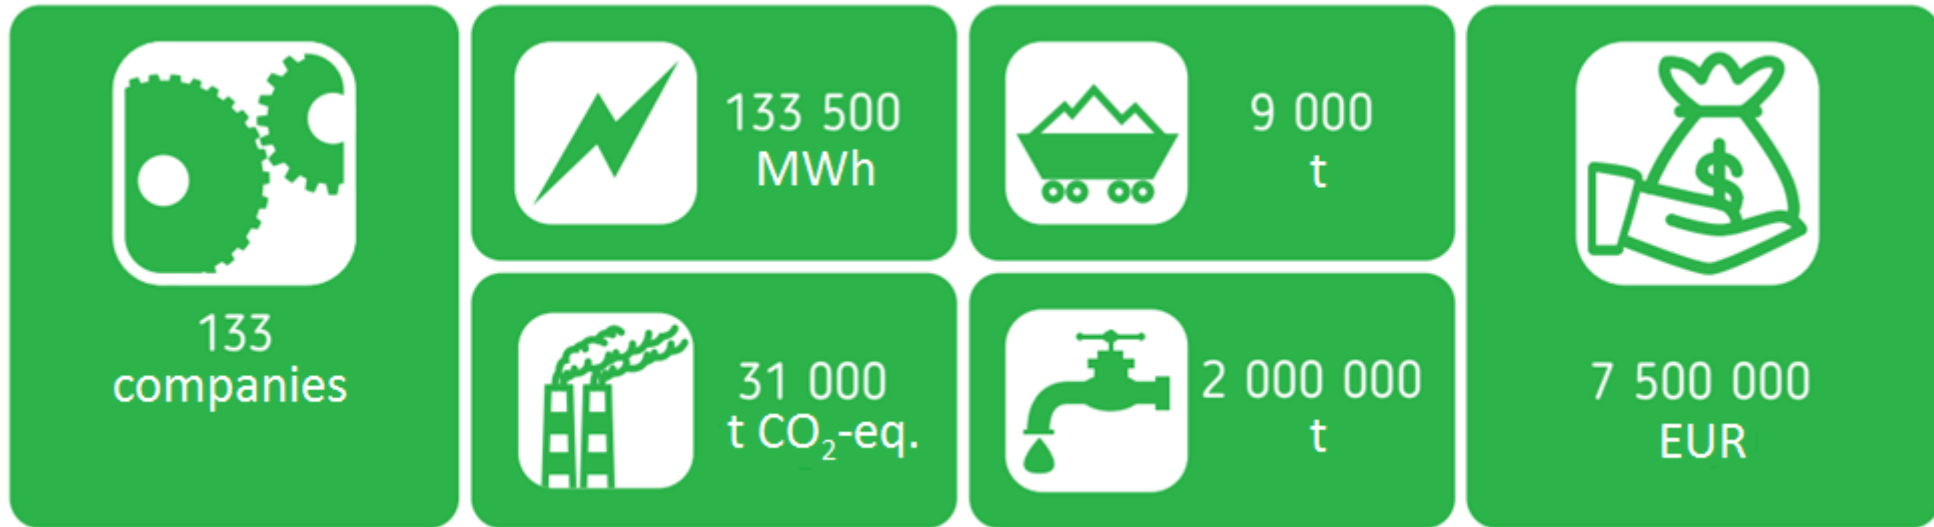

RECPC Centre's core activities

RECP assessments

RECP options proposed to Ukrainian enterprises in 2013-2017

RECP Demonstration Project under EU-funded EaP GREEN Programme

Project supported:

- Creation of human and institutional capacities for RECP;
- Demonstration, dissemination and replication of RECP in priority sectors (chemicals, food and construction materials);
- Transfer of and investment in RECP technologies

EaP GREEN
Partnership for Environment and Growth

Human capacity building

- Above 150 specialists were trained with RECP method under UNIDO CP project
- 2 universities (Igor Sikorsky Kyiv Polytechnic Institute and Vernadsky Taurida National University) integrated RECP study courses
- Above 50 servicemen and members of their families were retrained under “Ukraine-Norway” project
- 10 schools participate under the project “PROMoting Environmental and Technical Higher Education” within a support of the U.S. Embassy in Ukraine
