Procedural steps required by national legislation
I.32. Please describe how the steps required for a transboundary EIA procedure under your national legislation correlate to domestic EIA in the lead-up to the final decision. If there are differences in the procedures for screening/scoping or for preparation of the environmental impact assessment and consultation, please specify.
Alternatively, this question can be answered or supported by providing a schematic flowchar showing these steps.
Your comments: discrepancies were identified, and they were addressed in the
draft Law on amending the Law "On Environmental Impact Assessment and Expertise" (for instance, difference in procedures of screening/scoping).

Part two Practical application during the period 2016–2018

There has been no practical application in the Republic of Armenia, therefore, we can not provide any answers in Part two.

Please report on your country's practical experiences in applying the Convention (not your country's procedures described in part one), whether As a Party of origin or affected Party. The focus here is on identifying good practices as well as difficulties Parties have encountered in applying the Convention in practice. The goal is to enable Parties to share solutions. Parties should therefore provide appropriate examples highlighting application of the Convention and innovative approaches to improve its application.

II.1.	Does your country object to the information on transboundary EIA procedures
that you pro	ovide in this section being compiled and made available on the website of the
Convention	? Please specify (indicate "yes" if you object):
