Subject: Communication and Progress-reports

Dear Maricar and Aphrodite,

I would like by this email to inform you that the law draft on Environmental impact assessment is currently forwarded to the Parliament. It is envisaged that the bill will pass hearings at the Parliament and will be enacted no later than the end of this year. Please consider that the draft has been developed by the immediate participation of the communicant organizations. I will wait for further details of any meeting or video conference that the Secretariat may find appropriate.

With regard to the Communication ACCC/C/2011/62 we don't have any comments to the draft findings and recommendations.

Regards,
Aida Iskoyan.
