National Planning Policy Framework

We have published the draft National Planning Policy Framework for consultation. This is a key part of our reforms to make the planning system less complex and more accessible, and to promote sustainable growth. We are keen to hear views from all interested parties on the draft and how it might be improved.

Please find below the draft National Planning Policy Framework, a consultation document explaining how you can send us your comments (including through an internet questionnaire), and the consultation stage impact assessment. This consultation will close on **17 October 2011**.
