Subject: ACCC/C/2013/81 (Sweden)

Dear Fiona,

with a view to contributing to an effective and meaningful meeting for everyone concerned on Thursday my colleagues and I would like, if possible even though it's late, to add attached maps to the previous submitted material concerning the communication ACCC/C/2013/81. We recently received the maps after having contacted the municipality of Strängnäs.

The maps, in the scale 1:50 000 and 1:10 000, indicates - as we understand it - the location of the proposed wind turbines relevant for the communication (each proposed turbine marked with a cross) and the surrounding areas, e.g., the real estate property Helgarö-Väla 1:2 where, as we understand it, the communicant lives (as previously indicated his address Väla 3, 645 92 Strängnäs, correspond to the real estate property Helgarö-Väla 1:2).

Kind regards
Lina Oskarsson
