

ACCC/C/2013/92

From the communicant to ACCC – 23 September 2014

EIA PYHAEJOKI, FINLAND

Attachement 2a_Pyhäjoki- Finnish Rosatom - On 21 November 2013 Ms Femke Hustert from the office of Ms Kotting-Uhl informed that she has talked to the Ministry of the Environment (BMU). The officer of the BMU was able to tell her that the Federal State of Mecklenburg-Vorpommern will participate in the EIA Pyhaejoki. Ms Hustert talked also to an officer from the Federal State of Schleswig-Holstein and he told her they'll participate. See file 2c, the letter from this Ministry of Energy regarding the states wish to participation (in English). Further she informed that she will ask the Federal State of Niedersachsen whether they will also participate.

Following attachement 2b_MELUR_letter_to_Finland - This is the letter (in English) from the Energy Ministry of the Federal State of Schleswig-Holstein to Finland (from 15 November 2013). The ministry asked for participation in EIA Pyhäjoki.

Subject: AW: Pyhäjoki- Finnish Rosatom new build project about to fall apart

Dear All,

I talked to Martina Palm from the Ministry of the Environment today and she was able to tell me that the federal state Mecklenburg-Vorpommern will participate in the EIA.

Afterwards I talked to Udo Bünnagel from the federal state Schleswig-Holstein and he could also tell me they'll participate. Please find attached a letter from the Ministry of Energy regarding the states wish to participation (in English).

Right now I'm still checking whether the federal state Niedersachsen will also participate. I'll come back to you if I got any news!

All in all I think it's quite a good step forward!
I hope you feel the same!

All the best,
Femke

Dear all,

Thanks for the email and thanks for asking Altmaier for German involvement!

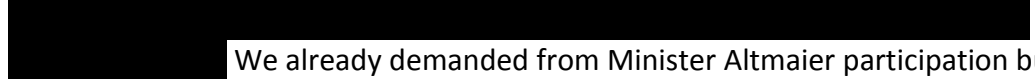

With best regards,
Jehki

Dear Jehki, dear Jan, dear Tobias,

We already demanded from Minister Altmaier participation but got no answer until today. Notification deadline is 30.11.2013.

Best regards,
Brigitte
