Subject: Information regarding Czech EIA legislation amendments

Dear Fiona,

We have received information to the effect that a new draft of the Czech EIA legislation was recently submitted to the Government and Parliament, and that this is in a very advanced stage of the procedure. In this draft, the definition of what qualifies as a so-called "subsequent procedure" is exhaustively listed.

Notably procedures according to the Atomic Act are not on this list.

We thought this information might be useful to the ACCC as it reviews compliance of the Czech Republic as it relates to multiple cases, among them C-106 (Czech Republic).

Summer
