Subject: ACCC/C/2014/119 (Poland) - comments from communicant on the Party concerned's response to the communication

Dear Sir/Madam

Further to your email concerning the communicants comments on response to the communication ACCC/C/2014/119 I would like to clarify the status of this letter.

In my opinion it is against CC rules to submit such paper at the current stage of the proceedings. It is due to fact, that the comments are presenting some new facts in relation to the original communication. Therefore, it gives us no possibility to answer it in our response. Moreover, the comments are expanding the substance of the communication.

That is why I would like to ask you whether there is such a possibility not to take these comments into consideration, at least not at the current stage of the proceedings. First of all we cannot accept expanding the substance of the communication.

I would be grateful if you could answer my email by Wednesday 8th June, so I would have enough time to formulate our official position if necessary.

Best regards

Jarosław Mielnik
