Subject: FW: Pre-admissibility communication concerning Germany to be considered at 48th meeting of Compliance Committee (Geneva, 24-27 March 2015)

Dear Ms Marshall,

We refer to Case PRE/ACCC/C/2015/125 on compliance by Germany. The European Union supports the argument by Germany that the Communicant, a German municipality, cannot be regarded as a member of the public and does not therefore fulfil the requirements to bring a Communication. The European Union shares the view of Germany that the Communication should be declared inadmissible on this ground.

Regards,

European Commission - DG Environment Unit.D-4
