Dear Ms. Marshall,  
Dear Mr. Przyborowski,

I am writing in response to the letter of the Compliance Committee Secretariat containing questions related to the case ACCC/C/2015/126.

Please, find enclosed our reply to the questions together with all the relevant documents. Some of the documents which were translated into English do not have certain elements that might be important to examine them. In example stamps confirming dates of publication, written annotations or a signature of a relevant authority. Therefore we added information about the authority who signed the particular document, the author of the document, date of publication etc.

In case you have any further questions, please do not hesitate to contact Mr. Jarosław Mielnik, a Polish Focal Point to the Aarhus Convention.
