Residents of the Bakałarzewo Commune

Dear Sir. Mayor of the Bakałarzewo commune  
Community Council of Bakałarzewo

In connection with the controversy related to the course of the planned power line of the High Voltage 2x400kV, we turn to the Head of the Bakałarzewo Commune and the Council of the Bakałarzewo Commune to change the technology of making the designed line from overhead to underground.

#### SUBSTANTIATION

Mr Wojewoda in response to the residents' protest in the letter WI-V.743.3..4.2012.MB of 06.06.2012.r. He pointed to the Commune Head and the Council of the Bakałarzewo Commune as competent in making decisions regarding the course of the route as well as the manner of its implementation. As everyone knows, in the Municipality of Bakałarzewo there is no possibility of running a line away from buildings (As Eltel Networks also agrees with, it is not possible to provide us and the Municipality Council with a different route option). Therefore, after considering the benefits and losses of the commune residents, we conclude as above with a cable line.

We are aware of the fact that it will increase the cost of investment, but is human health and the safety of the residents of our commune not a superior matter? This is also pointed out by Mr Wojewoda in the aforementioned letter. After carrying out this investment underground, our Municipality will not lose its natural and tourist values, after the construction we will still be able to use our properties in the current manner.

Once again, we emphasize: We agree to carry out this investment through the area of our real estate underground.

As Mr. Wojewoda noted in his letter, it is the investor's side to work out a compromise solution. The investor has our permission to use our property for the purpose of investment but in an underground version, not an overhead one.

Undertaking the activities of the commune administrator and the commune council will not infringe the legal interest of landowners and will not give rise to the application of the commune body to the administrative court under Art. 101 par. 1 of the Act on municipal self-government.
