Subject: Decision 9/b Aarhus Compliance Committee / progress report by Austria

Dear Ms. Marshall,

We were due to deliver our progress report on 31 October this year but we have just received the awaited review report by the Committee itself on 20 October.

I am kindly informing you that we will send in our progress report in December since this has been also indicated in para. 21 of the review report. We will coordinate our responses as we did last year taking into account the discussions recently held this autumn. Furthermore, we will provide an English translation as requested by the Committee but this requires some time since we do not provide for translations of legislation on a regular basis.

I do hope that the Secretariat will accept under these circumstances the report on behalf of Austria sent before 31 December.

Best regards
Anna Muner-Bretter
