

**Remaining issue, announced last meeting**

**by IEC regarding Regulation No. 48 to avoid misinterpretation**

(proposed amendment: bold text below, only)

Paragraph 2.7.1.1.2., amend to read:

- "2.7.1.1.2. "Non-replaceable light source" means a light source which can only be replaced by replacement of the device to which this light source is fixed;
- in case of a light source module: a light source which can only be replaced by replacement of the light source module to which this light source is fixed;
  - **in case of AFS: a light source which can only be replaced by replacement of the lighting unit to which this light source is fixed;**"
-
