

4th meeting of GRB Informal Group 'ASEP'
Thursday September 7th in Geneva
9am – 5pm Salle F-3

Draft Agenda

- 1. Opening of the meeting**
- 2. Approval of the agenda**
- 3. Approval of minutes from 3rd meeting**
- 4. Report from the Task Force**
Presentation of the results achieved in 4 meetings
- 5. Follow Up Task Force**
Measurement method: decision by the group
Processing data: discussion and preference of the group
Remaining issue: how to deal with the French proposal to exclude tire noise
(*Target: to have a decision this meeting*)
Boundary conditions
There are proposals for limiting acceleration, engine speed and vehicle speed.
(*Target: the group will conclude what is technically needed and what has a commercial background.*)
- 6. Limit values**
Discussion and evaluation of the options
(*Target: the group will decide about the favorite option.*)
- 7. Concerned vehicles**
How to identify vehicles of concern to be tested according to an additional procedure.
(*Issue raised by OICA, discussion will be based on a paper by OICA if available*)
- 8. Type approval procedure (enforcement of ASEP requirements)**
- Discussion on the roles and responsibilities in testing, declaration and type approval of all the parties involved (manufacturer, test house, TAA, contracting parties) -
Target: The group has to identify the possibilities, the criteria for a choice and score the options.
(*All members of the group are kindly requested to prepare themselves in advance.*)
- 9. Active Exhaust systems**
Examination of a wording which prohibits the use of variable exhaust systems intended to make more sound out of the tested areas, as proposal for changes to ECE R 51.
Ref: decision in first meeting; several papers in second meeting.
(*Members are kindly requested to bring in text proposals*)
- 10. Preparation of the next meeting**
- 11. Next meeting**
- 12. Any other business**
- 13. Closure of the meeting**
