

PROPOSAL FOR AMENDMENT TO ECE/TRANS/WP.29/GRRF/2007/14

(based on informal document No. GRRF-62-14)

A. PROPOSAL

Paragraphs 4. to 4.1., amend to read:

- "4. General Requirements. ~~Each vehicle must be equipped with an ESC system that~~ **ESC systems shall** meet the general requirements specified in paragraph 4. and the performance requirements in paragraph 5. under the test procedures specified in paragraph 6. and under the test conditions specified in paragraph 7. of this regulation.
- 4.1. Functional requirements. ~~Vehicles to which this regulation applies must be equipped with a~~ **An** electronic stability control system that:
- (a) Is capable
-"

B. JUSTIFICATION

The installation of vehicle stability system should be optional in the gtr. Because the real traffic situation and the actual accident condition in each country is different, the installation requirement should be judged by the each Contracting Parties in accordance with their traffic situation and actual accident condition.
