

# Hybrid Vehicle & ASEP

May 2009 ASEP

# Hybrid Vehicles & ASEP

- Hybrid Vehicles will operate in different modes.
  - Dependent upon design
  - Battery state of charge
  - Difficult to conduct ASEP in repeatable way

# Possibilities

1. Exclude such vehicles from ASEP
  - Political decision not to place burden on environmental vehicles.
  - Supported by understanding technical difficulty of testing.
2. Test Vehicles
  - Political decision that these vehicles are subject to ASEP.
  - In this case, much work is necessary to establish practical test: Much of this work cannot be immediately accomplished due to the current rapid technology development continually changes the technical basis.
