

Informal Joint Working Group of GRB and GRRF

**Geneva, Palais des Nations, Room IV,
26 / 27 May 2010,
starting at 9.30 o'clock on the first day**

Draft Agenda rev 1

- (1) Adoption of draft agenda
- (2) Informal documents GRB-51-9 and STD-04-06 from Russia, and STD-04-07 from ISO regarding the rolling resistance coefficient limits;
- (3) Informal documents GRB-51-11 and STD 04-08, 04-09 and 04-10 from Norway proposing additional tyre requirements;
- (4) Informal document GRB-51-14 from France regarding the minimum number of test tyres;
- (5) Informal document GRB-51-25 from Norway (together with the presentation from ADAC) regarding snow and ice braking performance of winter tyres;
- (6) Request from NL for an additional 4th requirement for professional off-road tyres (introducing an additional design criteria for the groove);
- (7) Concerns raised by Canada about Annex 7 traction test and a necessary reference to the test surface to be used within the applicable ASTM standard (STD-04-02).
- (8) Discussion on Annexes 8 and 9, including:
 - a) Informal document GRB-51-23 (+ rev 1) and STD-04-11 from Japan,
 - b) Informal documents GRB-51-14 and STD 04-04 from France,
 - c) Informal document STD-04-05 from ETRTO
- (9) Request to add the regulation number to the approval mark.
- (10) Editorial amendments (STD-04-03, STD 04-12)
- (11) Any Other Business

NOTE: The discussion will be based on document ECE/TRANS/WP29/2010/63 as agreed in the 51st GRB meeting in February 2010.
