

TC31 WG6 N276
21 May 2010

STD-04-07
Agenda item 2

Ref: STD 04-06, STD 03-06, GRB 50-07, GRB 51-12

To whom it may concern:

I have been made aware of the document STD 04-06 submitted by the Russian Federation for use at the Joint GRRF/GRB Informal Group on special Tyre Definitions, scheduled for May 26-27 in Geneva.

These issues require very detailed technical discussions, and ISO TC31 WG6 confirmed again in our May 11 meeting, in Baltimore, USA, that UN/ECE is not the proper forum for this discussion, which should remain within ISO TC31 and WG6 until resolution. Unfortunately, Professor Petrushov was not present for the meetings in Baltimore, although he did provide some material in advance of the meeting for review.

We continue to communicate with Professor Petrushov in a genuine effort to resolve the outstanding questions which remain.

Submitted with due respect.

Angela Wolynski
ISO TC31 WG6 Convenor
