World Forum for Harmonization of Vehicle Regulations

175th session

Geneva, 19-22 June 2018 Item 2.2 of the provisional agenda Coordination and organization of work: programme of work and documentation

Revised programme of Work of the World Forum for Harmonization of Vehicle Regulations (WP.29) and its Subsidiary Bodies

Note by the Secretariat*

The text reproduced below was prepared by the Secretariat for consideration by the World Forum. It takes into account the results and decisions taken at its 173rd session (ECE/TRANS/WP.29/1135) and its 174th session (ECE/TRANS/WP.29/1137) and the proposed agenda for its 175th session (ECE/TRANS/WP.29/1138) and updates also the information on the work of the six subsidiary Working Parties to WP.29.

^{*} In accordance with the programme of work of the Inland Transport Committee for 2018–2019 (ECE/TRANS/274, para. 123 and ECE/TRANS/2018/21/Add.1, cluster 3.1), the World Forum will develop, harmonize and update UN Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

Main topics of work of the World Forum for Harmonization of Vehicle Regulations and its subsidiary bodies

Top priorities for the work of the World Forum for Harmonization of Vehicle Regulations lie in the field of automated vehicles paving the way for a regulatory framework supporting the introduction of these emerging technologies towards future autonomous vehicles and in electro-mobility to address the challenges of limited fossil fuel resources, environmental protection and climate change.

1. Further development and implementation of the three Vehicle Agreements:

- 1.1. **1958 Agreement**: Following the adoption and entry into force of Revision 3 of the 1958 Agreement on 14 September 2017, the requirements for International Whole Vehicle Type Approval (IWVTA) are to be implemented via the new UN Regulation No. 0.
- 1.2. **1997 Agreement**: Further to amending the rules under the agreement, elements related to the performance and quality of periodic technical inspections have been prepared for an adaptation of the agreement and resolution R.E.6 covering skills and training for inspectors, requirements for testing equipment and supervision of test centres was established.
- 1.3. **1998 Agreement**: Following the establishment of Special resolution S.R.3, the implementation of the agreement will be followed with a more strategic approach by identifying key elements that define elements the work will focus on.

2. Horizontal activities:

- 2.1. Over the air updates of vehicle operational software, cyber security and data protection (ECE/TRANS/WP.29/1126, para. 23) as well as connectivity (V2V, V2I) and management of "big data" related to automation and to the user's profile
- 2.2. Performance requirements outside test conditions (ECE/TRANS/WP.29/1126, para. 21) and whole life compliance

3. Main topics of the Subsidiary Bodies:

- 3.1. GRB main topic is the work on a UN GTR for Quiet Road Transport Vehicles (QRTV).
- 3.2. GRE is focusing on the simplification of the lighting regulations following the establishment of the Resolution R.E.5 on the common specification of light source categories.
- 3.3. GRPE main area of work is related to the transformation of WLTP into a new UN Regulation and further harmonization of emission and energy consumption test procedures including RDE. Alternative powertrains/fuels and development of requirements for real world vehicle performance towards sustainable transport systems.
- 4.4. GRRF is establishing further elements for the UN vehicle regulatory framework towards automated driving. Amendments to UN Regulation No. 79 including ACSF both for low and high speed driving manoeuvres (automated lane-change), and amendments to UN Regulation No. 131 including AEBS for light vehicles (M_1 and N_1).

- 4.5. GRSG establishes a new UN Regulation on Advanced Driver Assistant Systems for Blind Spot Detection to early warn drivers of not automated vehicles.
- 4.6. GRSP focuses its work on a UN GTR for electric vehicle safety as well as on hydrogen vehicles, protection of vulnerable road users (e.g. UN GTR /UN Regulation on pedestrian protection, motorcycle helmets and child restraint systems).

Subjects under consideration by the World Forum (WP.29)

Subject		Document symbol ECE/TRANS/WP.29/	Documentation availability
1.1.	1958 Agreement	For document symbols and its availability, please refer to the agenda (1138)	

1.1.1. Draft amendments to existing UN
Regulations to be considered at the March
2018 session

UN Regulations Nos.:

- 13 (Heavy vehicle braking)
- 13-H (Brakes of M_1 and N_1 vehicles)
- 14 (Safety-belt anchorages)
- 16 (Safety-belts)
- 22 (Protective helmets)
- 44 (Child Restraint Systems)
- 49 (Compression ignition and positive ignition (LPG and CNG) engines))
- 51 (Noise of M and N categories of vehicles)
- 54 (Tyres for commercial vehicles and their trailers)
- 63 (Noise emissions of mopeds)
- 75 (Tyres for L-category vehicles)
- 83 (Emissions of M_1 and N_1 vehicles)
- 85 (Measurement of the net power)
- 89 (Speed limitation devices)
- 96 (Diesel emission (agricultural tractors))
- 106 (Tyres for agricultural vehicles)
- 108 (Retreaded tyres for passenger cars and their trailers)
- 109 (Retreaded tyres for commercial vehicles and their trailers)
- 120 (Net power of tractors and non-road mobile machinery)
- 129 (Enhanced Child Restraint Systems)
- 137 (Frontal impact with focus on restraint systems)
- 139 (Brake Assist Systems (BAS))

Document symbol Documentation Subject ECE/TRANS/WP.29/... availability 140 (Electronic Stability Control (ESC)) 1.1.2. Draft New UN Regulation: Hydrogen and Fuel Cell Vehicles of category L Mechanical coupling components of combinations of agricultural vehicles 1.1.3. Draft amendments to existing UN 1140 Regulations to be considered at the November 2018 session UN Regulations Nos.: 3 (Retro-reflecting devices) 4 (Illumination of rear registration plates) 6 (Direction indicators) 7 (Position, stop and end-outline lamps) 11 (Door latches and hinges) (Safety-belts) 16 17 (Strength of seats)19 (Front fog lamps) 23 (Reversing lamps) 24 (Visible pollutants, measurement of power of Compression Ignition engine (Diesel smoke)) 27 (Advance warning triangles) 29 (Cabs of commercial vehicles) 34 (Prevention of fire risks), 37 (Filament light sources) 38 (Rear fog lamps) 43 (Safety glazing), 44 (Child restraint systems) (Devices for indirect vision), 46 (Installation of lighting and light-48 signalling devices) 50 (Position, stop, direction indicator lamps for mopeds and motorcycles) 53 (Installation of lighting and lightsignalling devices for L3 vehicles) 67 (LPG vehicles),

Subject			Document symbol ECE/TRANS/WP.29/	Documentation availability
	69	(Rear-marking plates for slow moving vehicles)		
	70	(Rear-marking plates for heavy and long vehicles)		
	74	(Installation of lighting and light- signalling devices for mopeds)
