Submitted by the delegation of Belgium

In its written communication of 22 January 2004, the delegation of Belgium informed the secretariat that the water-quality indicator for Belgium as contained in the table on page 2 and reproduced from the World Water Development Report (see reference /1/ in ECE/AC.25/2004/5/Add.2) should be replaced by “-0.02”. The latter value is based on data for the period 1994-1999.
