Economic Commission for Europe

Committee on Innovation, Competitiveness and Public-Private Partnerships

Eleventh session

Geneva, 20-22 March 2017

Item 7(a) of the provisional agenda

Programme of Work

Draft Programme of work of the Economic Cooperation and Integration subprogramme for 2018-2019

I. Introduction

1. The present document sets out the draft programme of work for the subprogramme on Economic Cooperation and Integration (“the subprogramme”) for 2018–2019. The Committee on Innovation, Competitiveness and Public-Private Partnerships (“the Committee”) is invited to adopt it and recommend it to the Economic Commission for Europe (ECE) Executive Committee (EXCOM) for approval. Any subsequent additional, discontinued or carried over outputs will be reflected in the Integrated Monitoring and Document Information System (IMDIS) used by the Secretariat for the planning, monitoring and reporting on the implementation of the programme. The results of the implementation of the programme of work will be submitted to the Committee in the Programme Performance report for the biennium 2018-2019.
2. The draft programme of work applies a results-based management approach, which establishes a logical relationship between the hierarchical results (outputs – outcomes – impact) known as a ‘results chain’, the resources (human and financial) known as ‘inputs’ and the external factors (strategic, governance, operational, financial) which can prevent the objective from being achieved.
3. The outputs/activities in the draft programme of work correspond to those contained in the ECE proposed programme budget for 2018–2019. They fall into the following main categories: (a) meetings and related parliamentary documentation; (b) other substantive activities; and (c) technical cooperation, including advisory services, training courses, seminars, workshops, and field projects.
4. The outcomes/expected accomplishments, with corresponding indicators of achievement and performance measures are presented in Annex I in the form of a logical framework.

5. The details of the proposed publications are provided in Annex II. The overall ECE legislative mandates and those specific for the subprogramme are listed in Annex III.

II. Objective, strategy and external factors

6. The objective of the subprogramme is to improve a policy, financial and regulatory environment conducive to the sustained economic growth, innovative development and greater competitiveness of economies in the ECE region

7. The responsibility for the subprogramme is vested in the Economic Cooperation and Trade Division.

8. The subprogramme is expected to achieve its objective and expected accomplishments on the assumption that: (a) there is active participation and contribution by experts from Governments, academia and the private sector to expert group meetings and networks; (b) Governments are willing to engage in policy dialogue and take measures to implement policy recommendations and standards; and (c) extrabudgetary resources for capacity-building, advisory services and field projects are adequate.
