The AACE definition is formulated as follows:

"The Single Window for trade is a national or regional system mainly built on a computer platform initiated by government or an ad hoc entity to allows parties involved in trade and transport to lodge standardized information and documents with a single entry point to fulfill all import, export, and transit-related regulatory requirements".

International Single Window Conference & Exhibition
16th - 18th September 2013
Carlton Hotel, Antananarivo, Madagascar
