Supporting the Removal of Regulatory and Procedural Barriers to Trade in the Republic of Tajikistan
UNITED NATIONS ECONOMIC COMMISSION FOR EUROPE

TECHNICAL COOPERATION PROJECT FORM

PART I. Planning

**Project title and project number:** Supporting the Removal of Regulatory and Procedural Barriers to Trade in the Republic of Tajikistan

**Expected timing/duration:** 1 October 2017-31 September 2018 (1 year)

**Objective and brief summary of the project:**
This project seeks to assist Tajikistan in establishing a National Trade Facilitation Committee (NTFC) in line with the recommendations emerging from the UNECE study on regulatory and procedural barriers to trade and, thereby, enable the Government to fulfil its commitments under the Agreement on Trade Facilitation (ATF). This will further facilitate a coherent approach to addressing the root causes of poverty as per the Vienna Programme of Action for the Landlocked Developing Countries for 2014-2024. This objective will be achieved by implementing the following activities in collaboration with UNCTAD:

A1.1. Organization of a national “kick-off” workshop to identify the national training needs of NTFC and launch the project.

A1.2. In collaboration with the public and private sector stakeholders, review of Terms of References and, if necessary, the accompanying Government decision for guiding the establishment of the NTFC.

A1.3. Organization of a national workshop to train members of the NTFC on: (i) international standards for trade facilitation; and (ii) measuring and implementing trade facilitation (Dushanbe, Tajikistan).

A1.4. Organization of a national workshop to train members of the NTFC on stakeholder engagement and the establishment of a national trade facilitation implementation roadmap (Dushanbe, Tajikistan).

A1.5. Organization of a Training of Trainers Workshop (Dushanbe, Tajikistan).

A2.1. Preparation of a technical paper and a national action plan for deepening Tajikistan’s integration into global value chain

A2.2. Translation of the technical paper and action plan from English into Russian

A2.3. Organization of a validation workshop of the technical paper and national action plan (Dushanbe, Tajikistan). The technical paper and action plan will be used as a background document for the national workshop organized under A1.4.

**Expected results of the project:**

EA1. Increased capacity of public and private stakeholders to develop and coordinate the execution of trade policies and strategies for implementing the country’s post-WTO accession and fulfilling the country’s commitments under the ATF

EA2. Enhanced knowledge of policymakers and other stakeholders on the requirements for deepening the economy’s integration into the global value chain

**Target group and beneficiaries of the project:**

Relevant line ministries (economic development, agriculture, transport); specialized agencies (customs, standardization, accreditation); representatives of logistics service providers and trade support institutions; transport operators and traders in Tajikistan.

**Justification of project and its relationship to the programme of work:**

This project is directly linked to the Expected Accomplishment (d) “Enhanced national capacity of member States for trade policy development and implementation” of Subprogramme 6. “Trade” of the UNECE Strategic Framework for 2016-2017 and 2018-2019.

**Estimated UN regular budget resources (work months of RB staff/level of Staff):**
1.5 Months/P3, 1 Month/ G4

**Estimated extra budgetary resources:**
