

Session: Energy Corporations: Sustainable Development and Corporate Social Responsibility

Organizers: «Samruk-Kazyna Trust» CF

Target group: Open to all participants

For today, corporate social responsibility of business plays an important role in supporting in the social, economic and environmental spheres. The concept of Corporate Social Responsibility (CSR) implies that the rational interests of business focused not only on obtaining maximum profit, but also on improving its own environment (political, social, economic) through voluntary investment in relevant institutions.

The work of the session is aimed at supporting, developing and promoting the ideas of CSR. Effective using of CSR tools raises the level of public confidence in business and ensures the sustainable development of society as a whole.

The main goal of the session is to develop CSR in the Republic of Kazakhstan, to identify the best practices of charity programs, and to disseminate information about corporate charity in the business environment.

Speakers speeches and discussions on CSR of business, social investments and sustainable development with the participation of representatives of business, the state service and the international expert community.

Guiding questions:

- *How are the principles of CSR implemented in Kazakhstan*
- *World practice of social responsibility of business*
- *Development of measures to implement the policy of corporate social responsibility in Kazakhstan*
- *Combining the efforts of business and civil society in supporting of human rights, labor relations and the environment*
