

Working Party on Gas

The Gas Centre Database:

Recent changes -Trends for the future

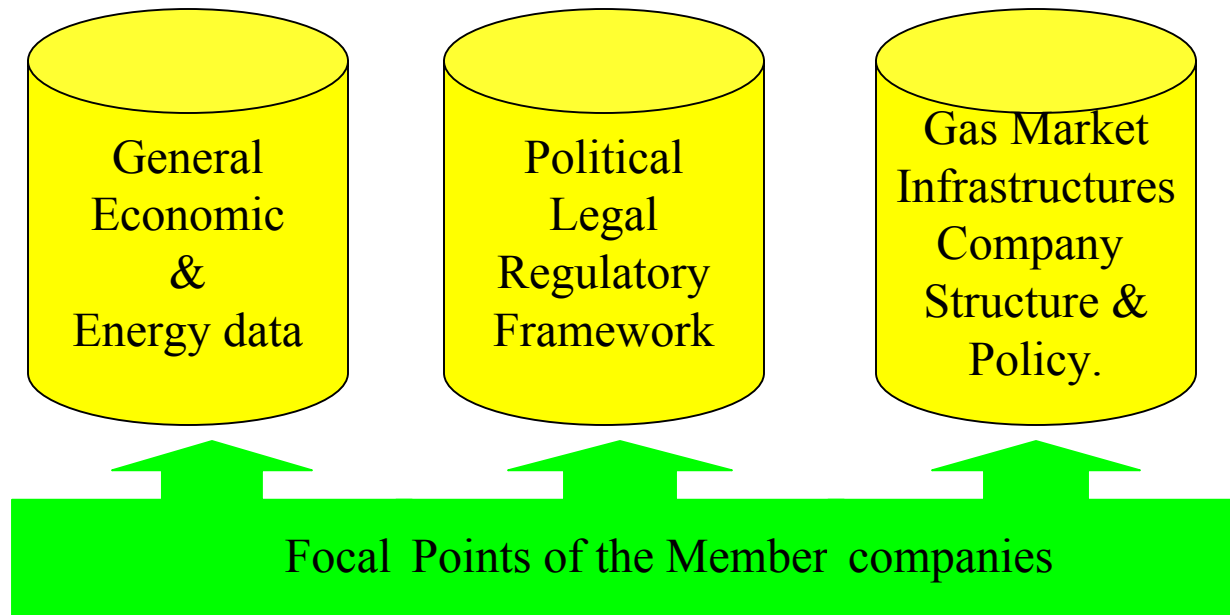

18th January 2005

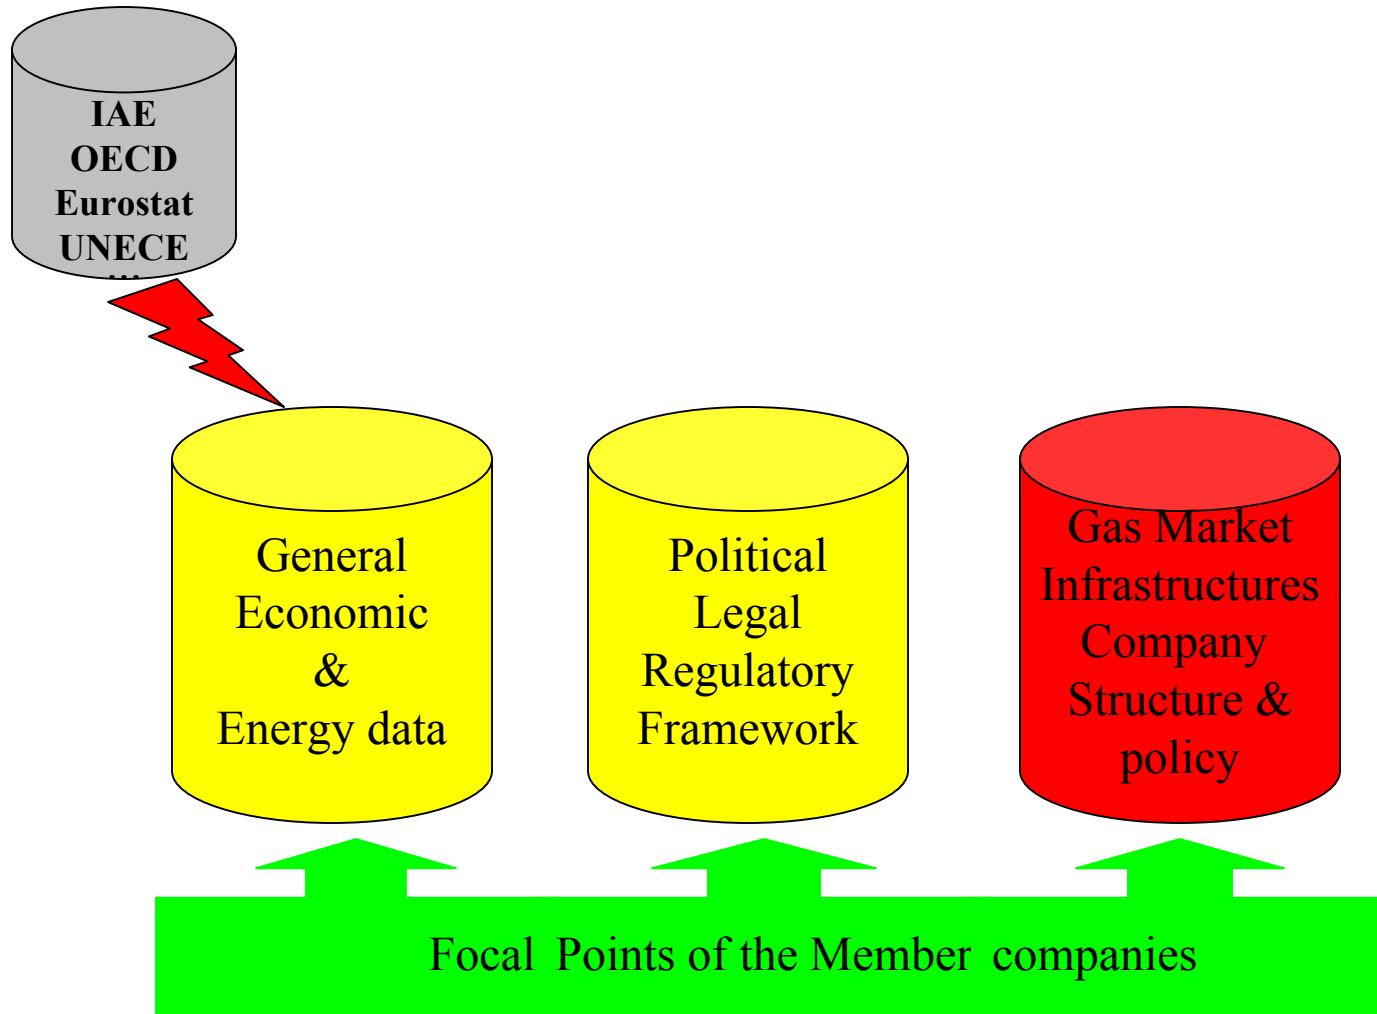

What's new in our web site

- A new server was implemented in November
- A new web site was launched
- A new page has been implemented, giving a direct access to the most interesting press releases
- Consideration on the database has been initiated by sending a questionnaire

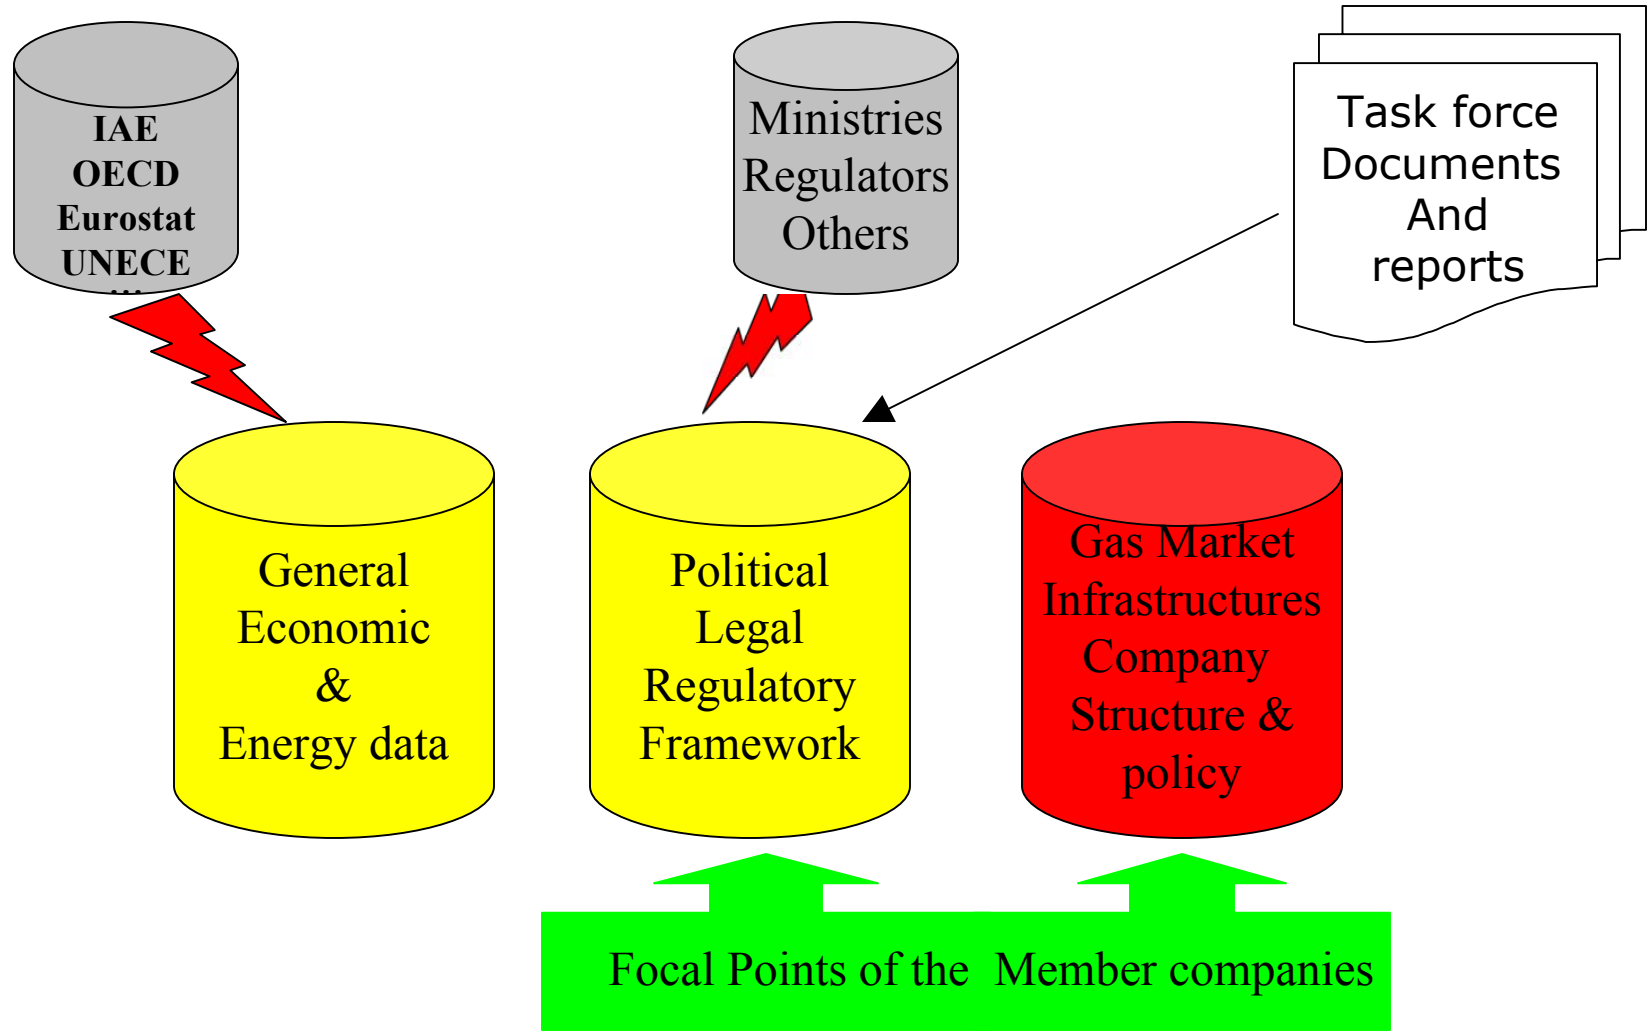

From a Database...

From a Database...

From a Database...

...to a gas portal and a gas datawarehouse

Work programme for 2005

First semester: linking issue

- Identification of the relevant sites.
- Entering the links in the database
- Cross linking with the Task forces documents
- Designing the new loading tools for the focal points
- New “mini-site” presenting the results of the Task Force on Company and Market structures.

Second semester :restructuring issue

- “Core data base” restructuring
