Refining and petrochemistry development

Petrochemistry projects in Kazakhstan

The first petrochemical complex in Atyrau oblast

Products: polyethylene, polypropylene

Capacity: 800 thousand tons of polyethylene, 400 thousand tons of polypropylene

Location: Karabatan station in Atyrau oblast

Completion time: 2012

Production of road asphalt

Products: road asphalt

Capacity: 420 thousand tons

Location: Aktau Plastic Plant in the city of Aktau

Completion time: 2009

Aromatic Hydrocarbons Complex

Products: basic petrochemical stocks – benzene, paraxylene

Capacity: 130 thousand tons of benzol, 500 thousand tons of paraxylene

Location: Atyrau Refinery (the city of Atyrau)

Completion time: 2011

Total Investments – USD 6 bln.

Implementation of effective forms and methods of corporate governance

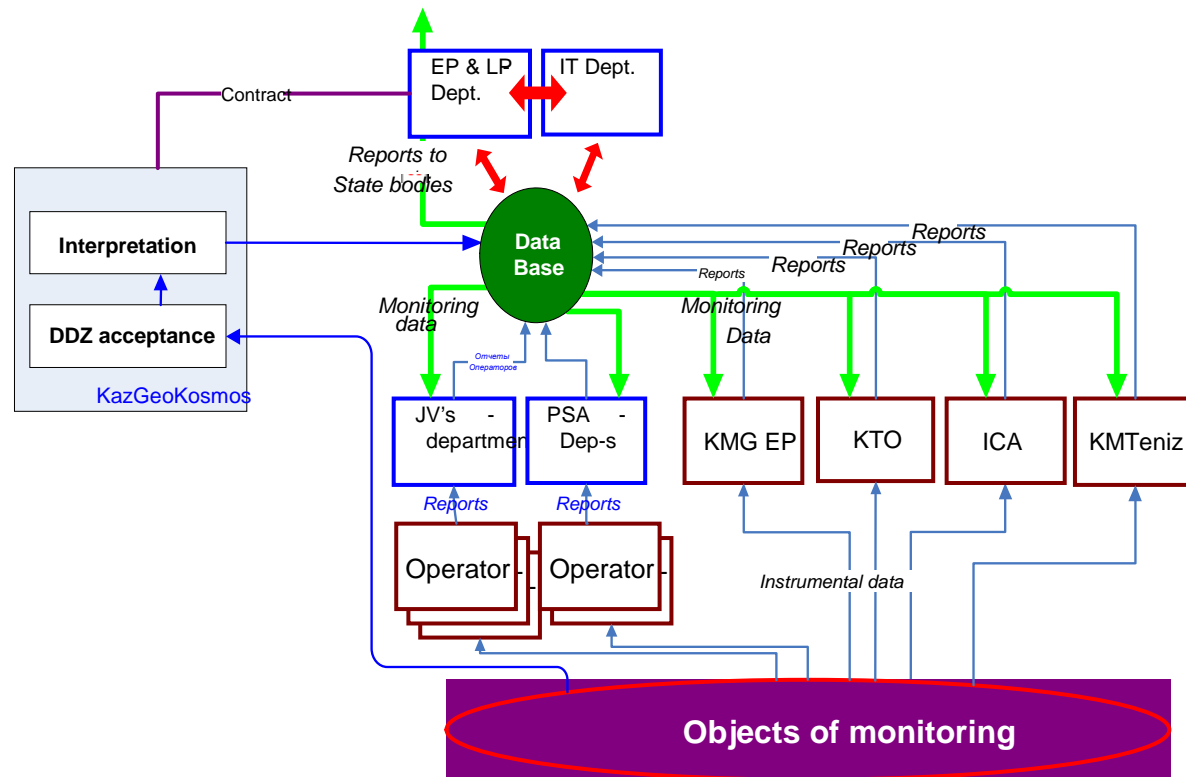

- ✓ **Implementation of international standards of financial reporting**
