Rusakova V.V.*

GAZPROM and Strategic Partnership for Enhancing Energy Security

November 19, 2008

Annual natural gas reserves increment due to geological exploration and production

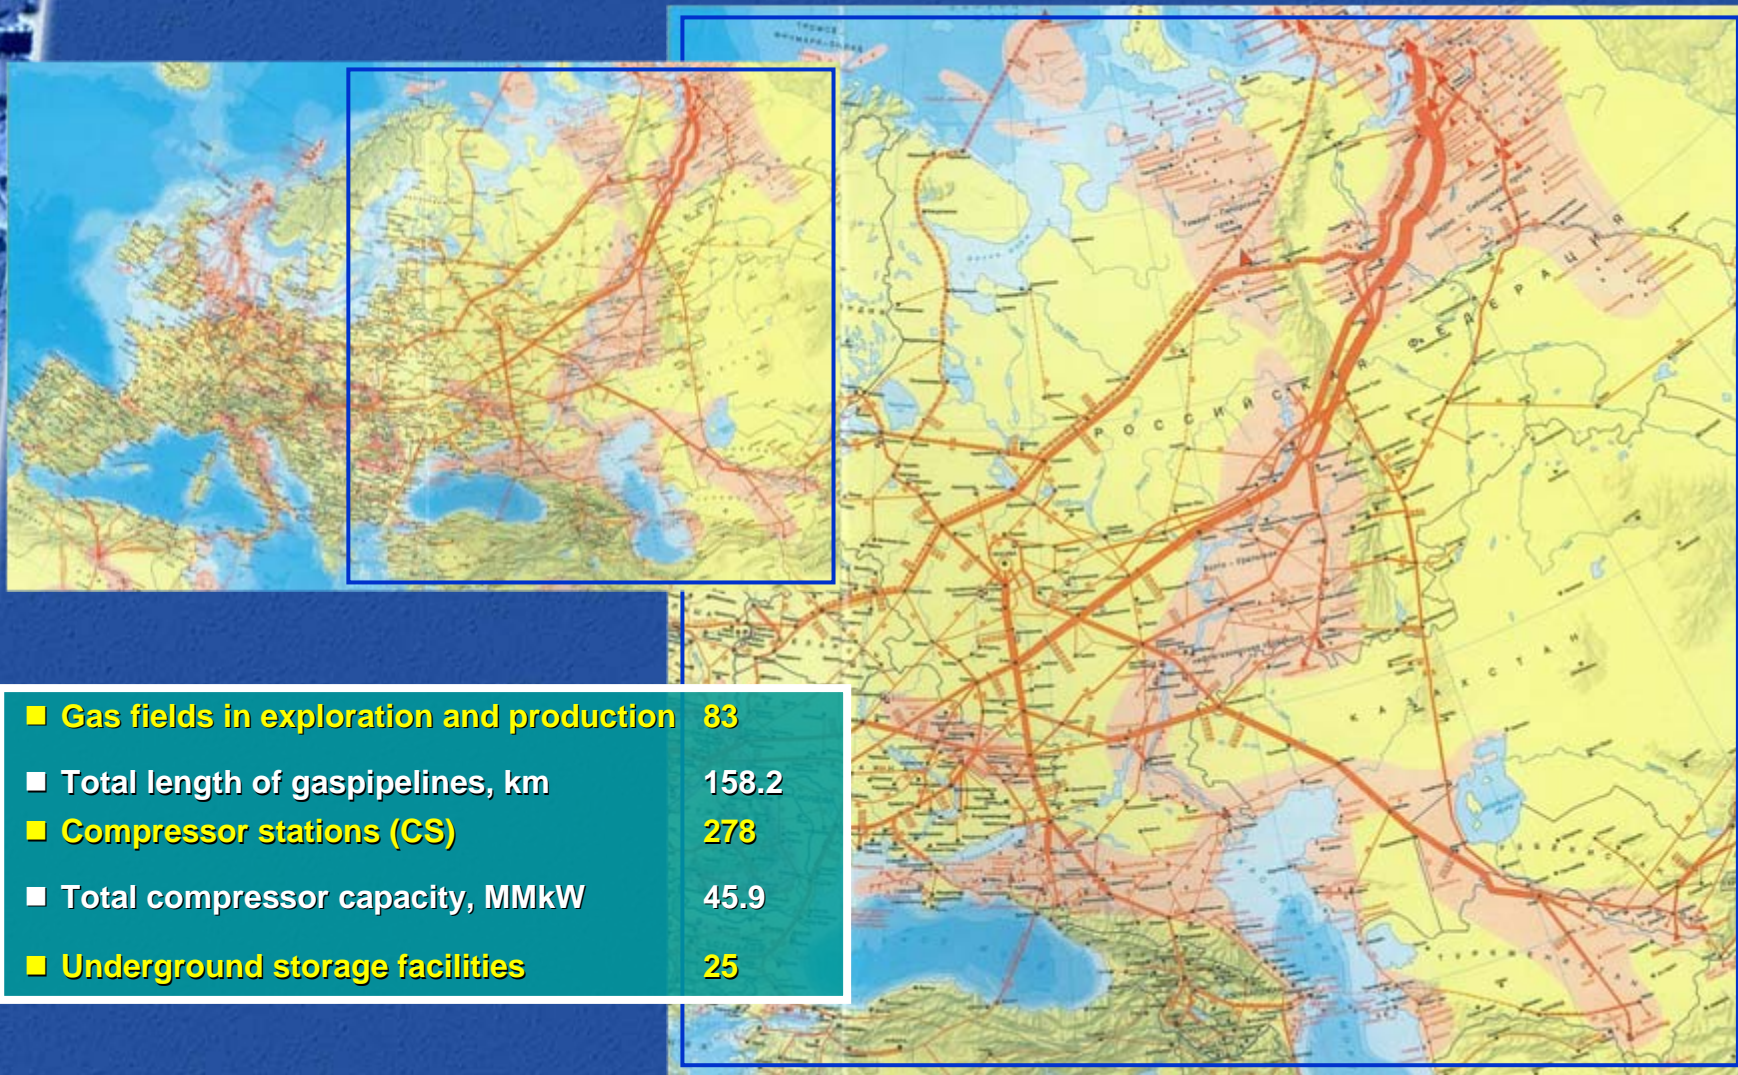

Putting on production (2001-2007)

Fields	Potential output (bcm)
■ Zapolyarnoye	100
■ Pestcovoye	27.5
■ Yuzhno-Russkoye	25
■ Etiy – Purovskoye	15
■ Aneryakhinskaya area of Yamburg Field	10
■ Vingayakhinskoye	5
■ En – Yakhinskoye	5
■ Tab – Yakhinskaya area of Yrengoy Field	5

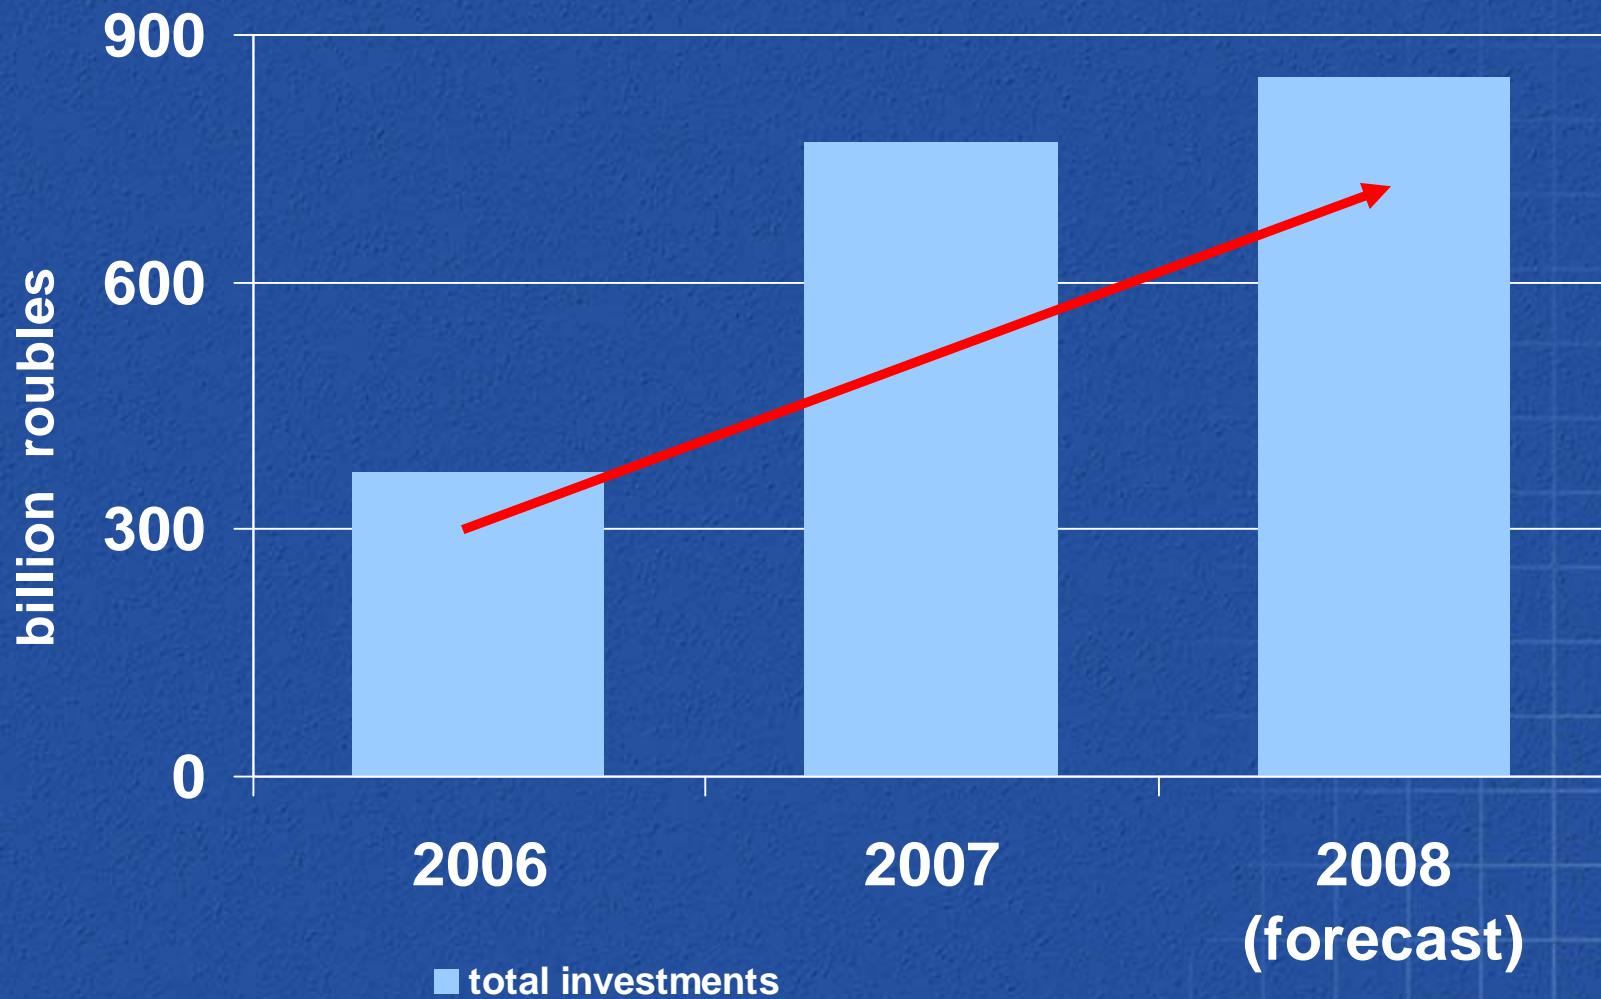

Russian Unified Gas Supply System

■ Gas fields in exploration and production	83
■ Total length of gaspipelines, km	158.2
■ Compressor stations (CS)	278
■ Total compressor capacity, MMkW	45.9
■ Underground storage facilities	25

Investments

Collaboration between Gazprom and Wintershall

Exploration and Gas production in Russia

2008 – Achimovskie deposits of Urengoy gas field

2007 – Yuzhno-Russkoye field

Transportation and underground gas storage

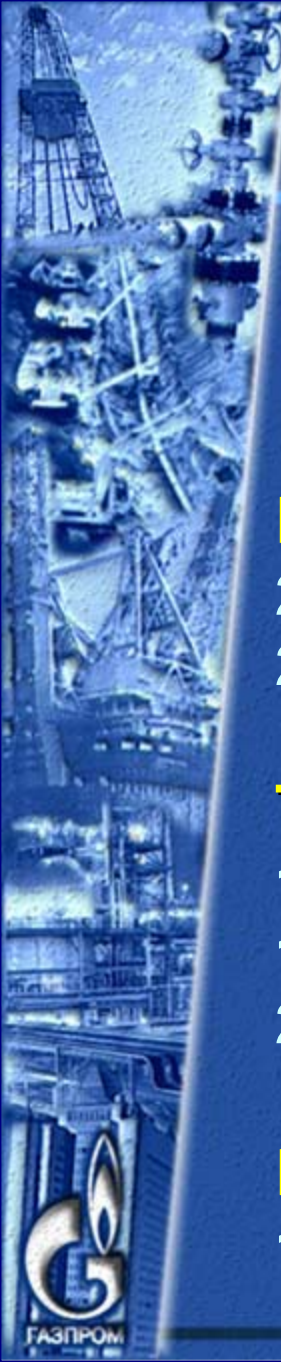

1998 – gas pipeline Vedal

1999 – gas pipeline Yagal

2007 – gas pipeline UGS Khaydach

Distribution and marketing

1990 – establishment of joint ventures WIEH

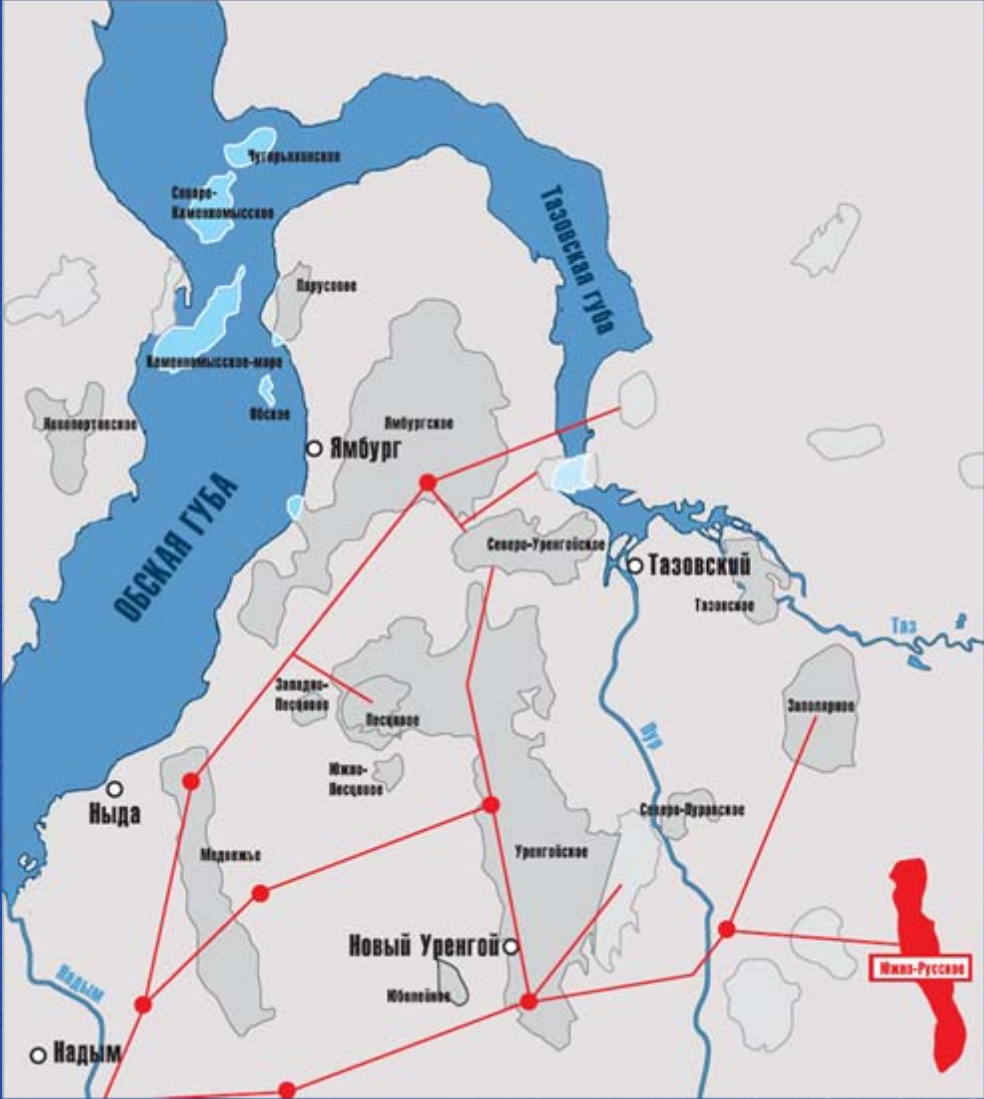

Yuzhno-Russkoye Field

Project participants

GAZPROM

BASF AG

E.ON AG

Shtokman field

Strategic importance of Shtokman field

- giant reserves of hydrocarbons
- closeness to markets
- possibility of both pipeline and LNG projects realization

North stream: Direct link between Gazprom and European customers

■ Length of sea section, km	~ 1200
■ Producing capacity, bcm/year	~ 55

Project Status

Special Company
South Stream AG
established

Partners: **Gazprom, Eni**

Based: Switzerland

Main tasks: Market research and feasibility study for the project

Feasibility study: Completed by the end of 2008
