# Guiding principles and advantages

## ➤ Principles:

focus, demand driven, results oriented,  
selectivity, cooperation and partnership

## ➤ Advantages:

direct link, networks, in-house technical  
expertise, multiplier effect

# Key Regional Advisory Issues

- Economies in Transition
  - Regional / International Cooperation
  - Climate Change Mitigation
  - Energy Efficiency
  - Renewable Energy Sources
  - Millennium Development Goals
- 

# Activities

- Policy Advice
- Technical Assistance
- Inter-Sector & Regional Cooperation
- Cooperation Regional & International Organisations
- Participation Multilateral Programmes
- International Conferences, Seminars & Workshops

# Regional Advisory Constituency

- 56 UNECE Governments
- Non Government Organisations
- UN Agencies & International Organisations
- Regional Organisations
- International Financial Institutions
- Commercial Companies
- Public Private Partnership Funds

# Accomplishments

- Project “Development of the Renewable Energy Sector in the RF and in CIS countries: Prospects for Interregional Cooperation”
- Removing barriers to energy efficiency improvements in the state sector in Belarus (UNDP, GEF, UN ECE project)

# Accomplishments

- Activities under SPECA  
Project Working Group – Astana,  
30 Sept.2010
  
- Activities under UNDAF

# Development of the Renewable Energy Sector in the RF and in CIS countries

## Expected accomplishments

- Increased national capacity to identify and adopt measures to overcome barriers to renewable energy
  - Enhanced investment climate for the development of renewable energy sources
- 

# UNDP / GEF / UNECE Project

Removing barriers to energy efficiency improvements in the state sector in Belarus

## Project goal

Reduction of GHG emission by removing the major barriers to the development of a market for energy efficient products and services to reduce and offset fossil fuel use in Belarus

Programme period : 2007-2011

# SPECA PWG Astana 30 September 2010
