*12 Session of the Ad Hoc Group of Experts on Energy Efficiency Investments for Climate Change Mitigation  
Geneva, December 19, 2008*

## GENERAL INFORMATION ABOUT THE PROJECT

---

- ***Project Title:* Financing Energy Efficiency Investments for Climate Change Mitigation**
- ***Project No:* (ECE – INT- 04-318)**
- ***Basis:* Memorandum of Understanding No: ECE/GC/2008/022**
- ***Client:* United Nations Economic Commission for Europe**
- ***National Participation Institution:* Agency for Rational Energy Use and Ecology (ARENA-ECO), Kyiv, Ukraine**
- ***National Project Coordinator:* Mykola Raptsun, President, ARENA-ECO**

## PROGRESS IN IMPLEMENTATION OF THE OVERALL PROJECT (1)

### October-December, 2008

Under the Assessment Mission in Ukraine meetings of representatives of UNECE, National Coordinator and National Participation Institution with high level officials of major Ukrainian Ministries, international and Ukrainian organisations were organised and held, particularly:

- Ministry of Environmental Protection of Ukraine,
- Ministry of Fuel and Energy of Ukraine,
- Ministry of Coal Industry of Ukraine,
- Ministry of Housing and Communal Services of Ukraine,
- National Agency for the Effective Use of Energy Resources,
- NJSC “Naftogaz of Ukraine”,
- The United Nations in Ukraine,
- Ukrainian Association of Industrialists and Entrepreneurs,
- Association of Ukrainian Cities,
- World Bank in Ukraine,
- European Bank for Reconstruction and Development in Ukraine,
- UkrEsco, etc.

## PROGRESS IN IMPLEMENTATION OF THE OVERALL PROJECT (2)

---

October-December, 2008

- **Methodological approach to project preparation has been established;**
- **Data are being collected and prepared for analysis of key activities and energy sectors (prospects of key energy sectors' development in terms of production and energy consumption, market reforms in energy sector, regulatory, organizational, institutional transformation and barriers, etc.).**

## PROGRESS IN IMPLEMENTATION OF NATIONAL PROJECT WEBSITE (October-December, 2008)

Working version of web-site structure has been developed, which includes the following:

- Information on “Financing Energy Efficiency Investments for Climate Change Mitigation” Project;
- Work progress schedule;
- Information on East-European Energy Efficiency Fund;
- Information about Ukraine as a participant of “Financing Energy Efficiency Investments for Climate Change Mitigation” Project
  - State institutions which regulate energy efficiency and carry on relevant state policies;
  - Non-state institutions and business structures involved in energy efficiency and energy saving;
  - Energy efficiency legal and regulatory framework;
  - List of energy efficiency and renewable energy investment projects;
  - Contact information;
- Library;
- Project software;
- Hot-link connections to project participants;
- Web-site resources and their distribution;
- Investment project database;
- Hotline with project participants and partners;
- News.

## PROGRESS IN IMPLEMENTATION OF NATIONAL ENERGY POLICY INFORMATION FOR REGIONAL ANALYSIS (October-December, 2008)

- Data are being collected for analysis of country's economic, energy and environmental performance, production and energy consumption sector characteristics, greenhouse gas emissions according to the inventory (1990-2006), renewable energy use.
- List of legal documents which regulate relations between economic entities in energy efficiency and energy saving has been prepared.
- Data are being collected as to energy market structure and players, energy efficiency potential and renewable energy use as well as identification of barriers and 'bottlenecks' to energy efficiency and search for specific conditions of market formation.
- Data are being collected as to identification of regulatory, administrative and institutional transformations for energy efficiency market formation in neighboring countries.

## PROGRESS IN IMPLEMENTATION OF NATIONAL CASE STUDY (October-December, 2008)

---

- Data are being collected under a national study of policy reforms to promote energy efficiency and renewable energy investments as well as search for additional measures under the project implementation.
