

Implementation of the Work Plan

for the building a network of energy managers of
Southeastern Europe and for the development of a
project website

Dr Zdravko Genchev
Center for Energy Efficiency, Sofia, Bulgaria

Major tasks of the contract

Build a **network** of energy managers of Eastern Europe

Develop & maintain a **regional website** of the project with 12 national sub-sites

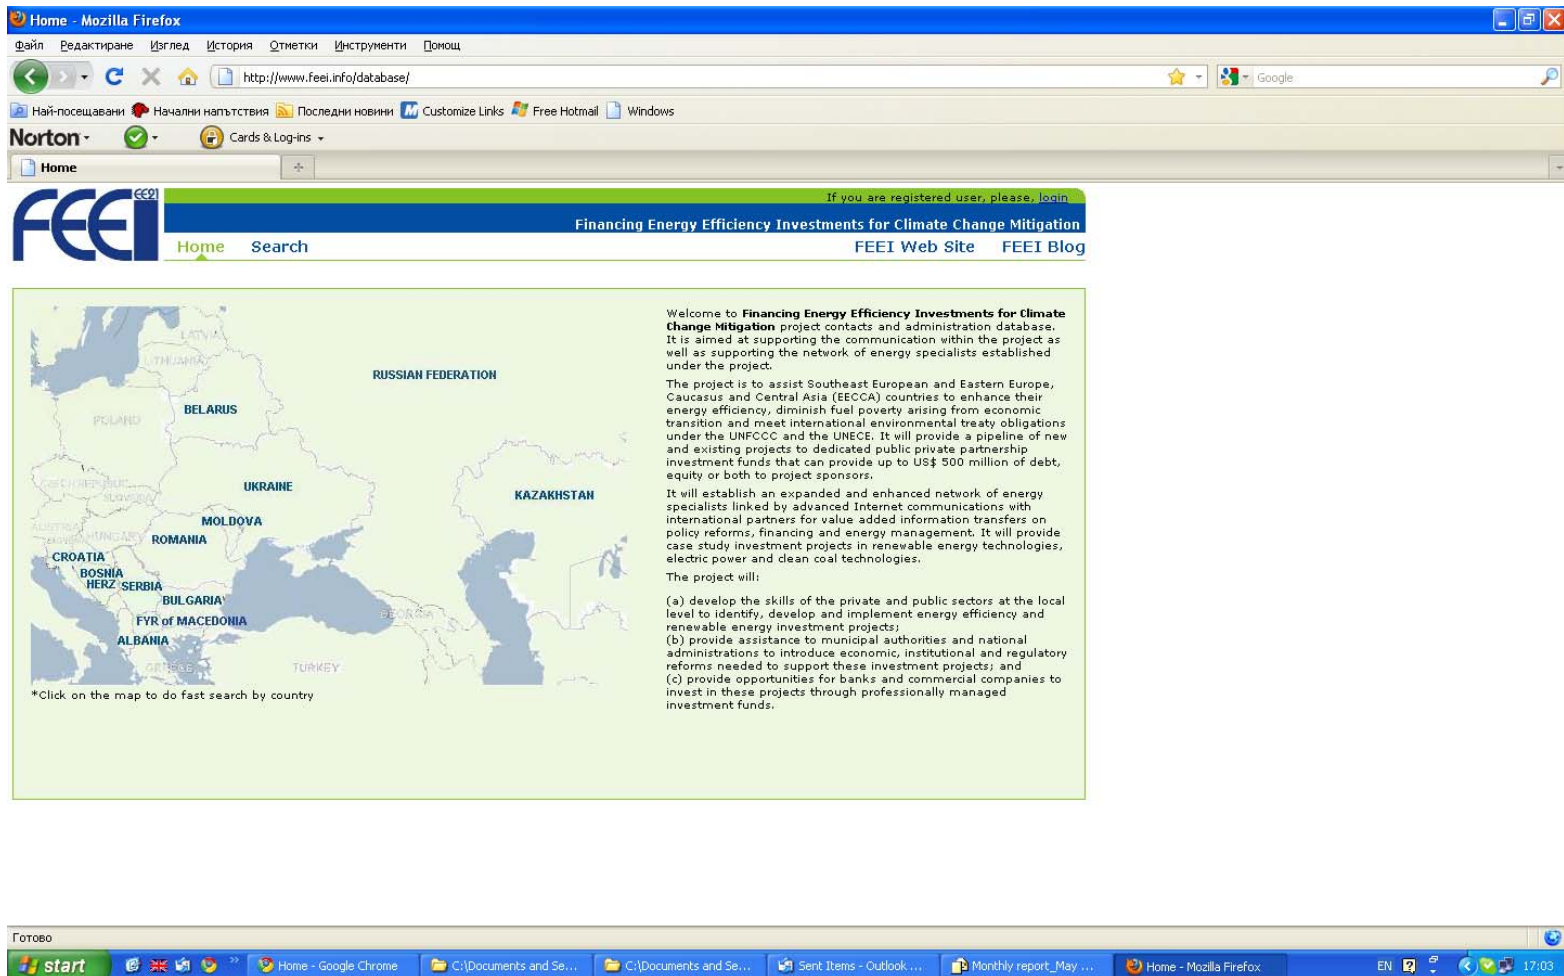

Develop an Internet based **communication platform** for on-line exchange, consultations and training

Provide **on-line training** for local teams

Prepare project deliverables for **publication** and issue promotional materials for the project

Build a network
of energy managers of Eastern Europe

Network Database (www.database.feei.info) Main Screen

Milestones Reached

- ✓ **Networking concept accepted**
 - ✓ **National teams confirmed**
- ✓ **Data about direct project partners collected**
- ✓ **Software for the network database developed**
 - ✓ **Database maintained and updated on its permanent address**

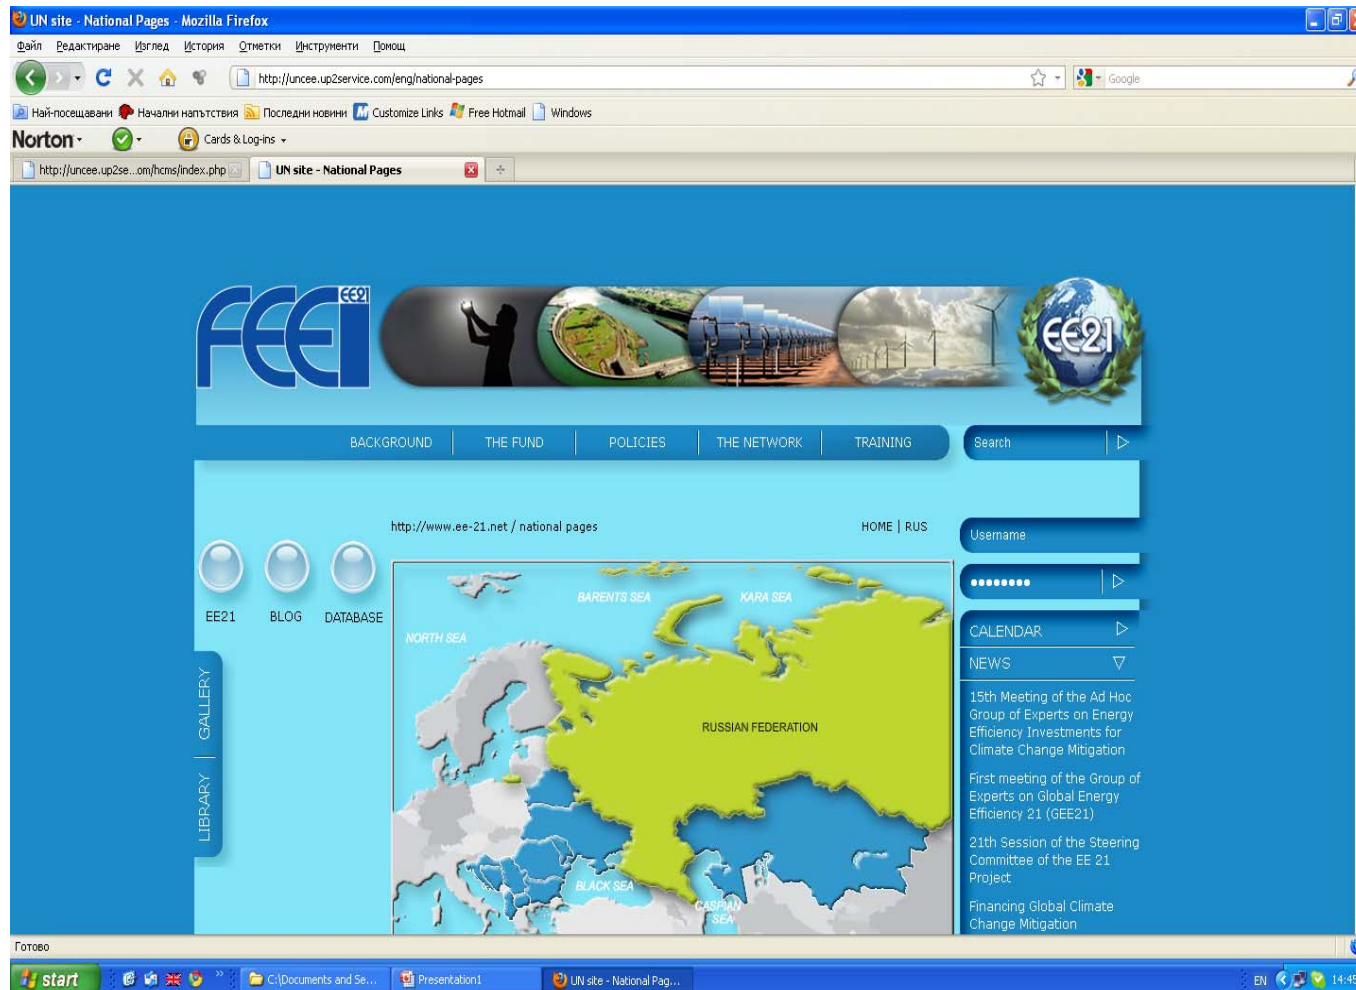

Website and Internet Communication Technologies

Develop & maintain a regional website
of the project with 12 national sub-
sites

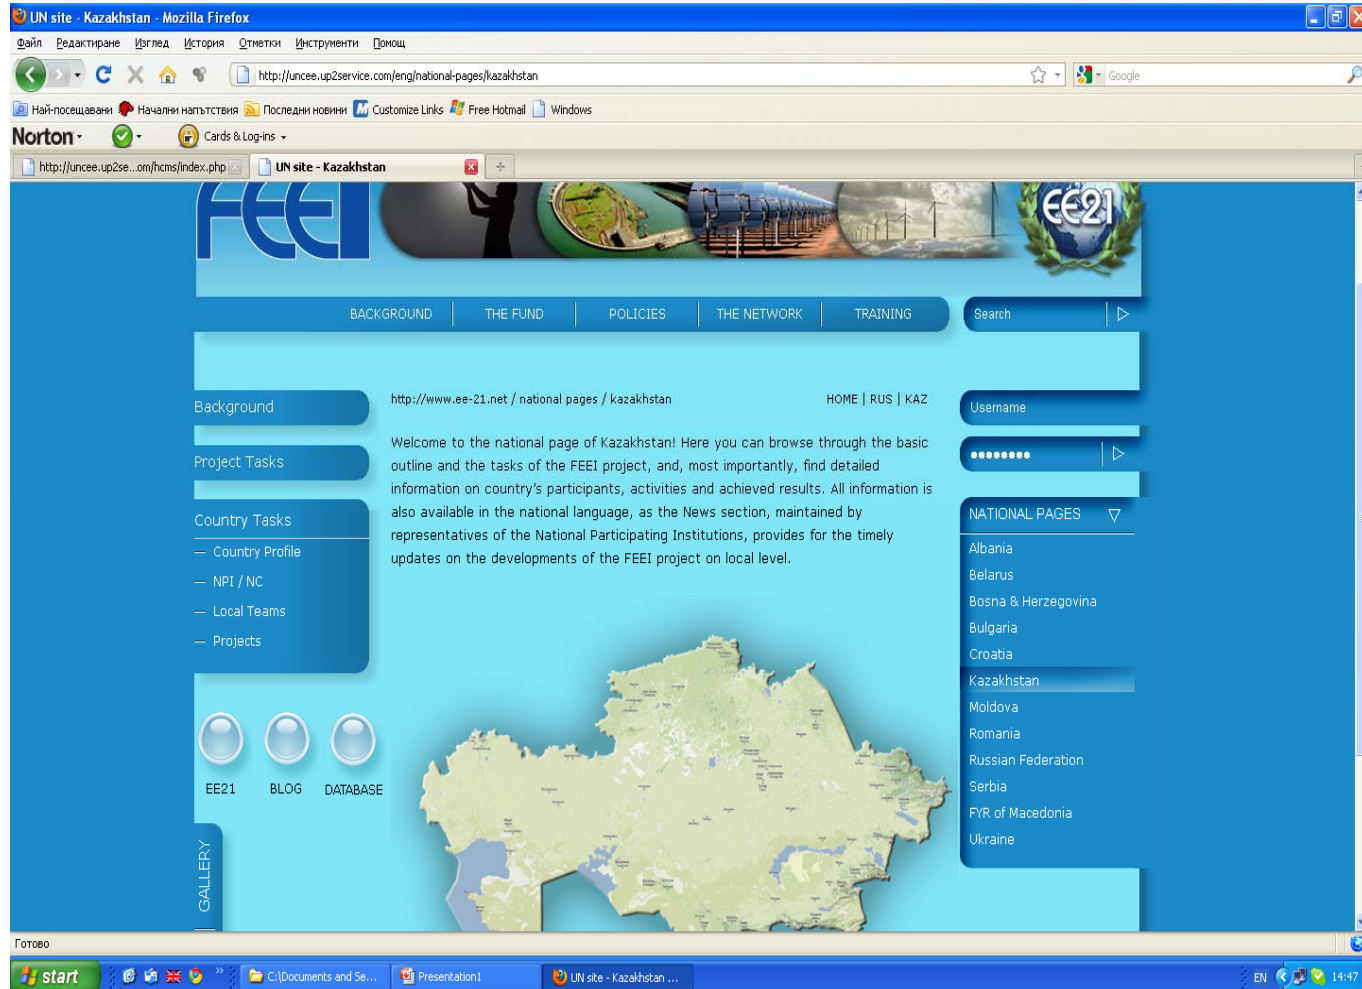

FEEI Regional Website www.feei.info

FEEI Regional Website

National Pages Overview

Proposals for the new EE 21 site

Milestones Reached

✓ **Website structure**
agreed and implemented

✓ **Website design**
confirmed and implemented

✓ **Software development**
executed and approved

✓ **Website launched**
at its permanent address
www.feei.info

Immediate Actions

Gather information

for specific text elements in the national languages

Transfer and maintain

the existing EE 21 web site to the new platform

Next Steps

Maintain and update the regional site

on a regular basis, using information provided by the project participants

Maintain links

to the existing country sites developed by the NPIs

Provide personal instructions

to national teams for the development and maintenance of the national pages

Develop an Internet based communication platform for on-line exchange, consultations and training

Provide on-line training for local teams

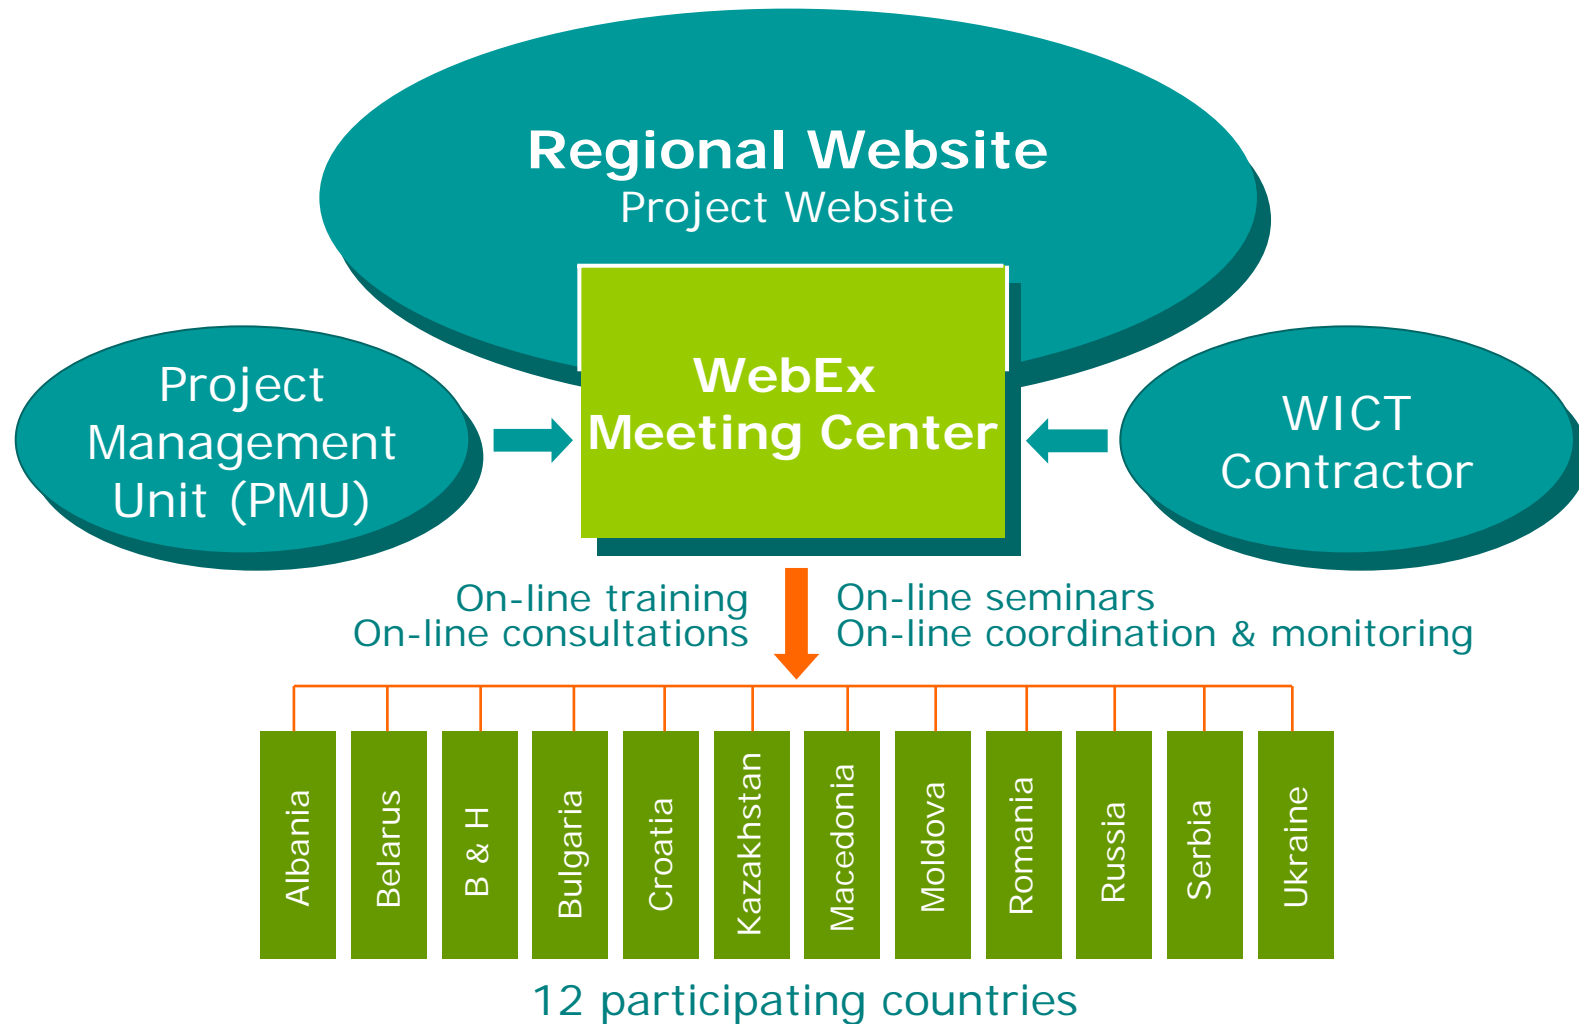

FEEI Web Blog

The screenshot shows the FEEI Web Blog interface within a Mozilla Firefox browser window. The browser's address bar displays the URL http://fееi.info/blog/General_Issues. The page features a header with the FEEI logo and the tagline "Financing Energy Efficiency Investments for Climate Change Mitigation". Below the header, there is a navigation menu with options like "Username" and "Search". The main content area is divided into several sections:

- CALENDAR:** A calendar for April 2010, with the 14th highlighted. Below it, a message states "NO EVENTS FOR 14.04.10".
- LINKS:** A list of links including "UNECE", "EE-21 Programme", "Conning", "Pöyry", "EnEffect", and "FEEI Database".
- Open access posts:** A list of three posts:
 - 18 FEB 2010:** "15th Session of the Ad Hoc Group of Experts, 19 April 2010". The post includes a date range (19.04.2010 - 19.04.2010) and categories (PMU, Open access posts, PMU Blog). The text describes documents related to the 15th Meeting of the Ad Hoc Group of Experts in Geneva on 19 April 2010.
 - 18 FEB 2010:** "First meeting of the Group of Experts on Global Energy Efficiency 21 (GEE21), Geneva, 20 April 2010". The post includes a date range (20.04.2010 - 20.04.2010) and categories (PMU, Open access posts, PMU Blog). The text describes materials related to the first meeting of the Group of Experts on Global Energy Efficiency 21 (GEE21) in Geneva on 20 April 2010.
 - 18 FEB 2010:** "21th Session of the Steering Committee of the EE 21 Project, 21 April 2010". The post includes a date range (21.04.2010 - 21.04.2010) and categories (PMU, Open access posts, PMU Blog). The text describes documents related to the 21st Session of the Steering Committee of the Energy Efficiency 21 Project in Geneva on 21 April 2010.
- CATEGORIES:** A list of categories including "Open access posts", "PMU", "Supporting Institutions", "Investment Fund", "Fund Designer Blog", "Policy Reforms", "Policy Report Contractor Blog", "ICT and Website", "ICT Contractor Blog", "Capacity Building", "Participating countries", and "Albania", "Belarus", "Bosnia and Herzegovina", "Bulgaria", "Croatia", "Kazakhstan", and "Republic of Moldova".

The browser's taskbar at the bottom shows the Windows Start button, several icons, and the system tray with the time 15:01.

On-line Communication

Online Communication: WebEx Meeting Center

The screenshot displays the Cisco WebEx Meeting Center interface for a meeting titled "Dragomir Tsanev's Free Meeting". The interface is divided into several sections:

- Header:** Cisco WebEx Meeting Center - Dragomir Tsanev's Free Meeting. Menu items: File, Edit, Share, View, Audio, Participant, Meeting, Help.
- Navigation:** Quick Start, Info, User guide template x, blog x.
- Main Content Area:**
 - Calendar:** November 2009. A calendar grid shows dates from 1 to 30. Below it, it states "NO EVENTS FOR 24.11.09".
 - LINKS:** EnEffect, EE-21 Programme, Conning, UNECE, Pöytyä.
 - News Articles:**
 - 23 NOV 2009:** Workshop on Case Studies on Overcoming Barriers to Investments into EE and RE Projects. Published 10.11.2009 - 11.11.2009. Admin, PMU Blog, Open access posts. Description: Development and analysis of case studies on overcoming barriers to investments into energy efficiency and renewable energy projects through policy reforms.
 - 23 NOV 2009:** Investor Interest and Capacity Building Needs. Published 23.11.2009. Admin, PMU Blog, Open access posts. Description: Publication from the ECE Energy Series, No. 32.
 - 23 NOV 2009:** 14th Meeting of the Ad Hoc Group of Experts. Published 07.10.2009 - 09.10.2009. PMU, PMU Blog, Open access posts. Description: The files attached below represent the documents related to the 14th Meeting of the Ad Hoc Group of Experts, conducted on 7-9 October 2009 in Geneva, as provided by the official site of the UNECE. Among them, you can find the annotated agenda of the meeting, the draft work plan for the third year of project ...
 - 23 NOV 2009:** Energy Profile of the Republic of Serbia.
 - CATEGORIES:** Open access posts, PMU, PMU Blog, Fund Designer, Fund Designer Blog, Policy Report Contractor, Policy Report Contractor Blog, ICT and website Contractor, ICT Contractor Blog, Capacity Building Contractor, Participating countries (Albania, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia).
- Right Panel (Meeting Control):** Participants (1 of 1 ready), Chat, Video. Includes controls for "Make Presenter", "Audio", "Mute", "Send to: All Participants", and "Send".

Online Communication: Provisional Training Schedule

Online communication platform	First training session	Second training session
WebEx Meeting Center	15 June, 10.00 CET	17 June, 15.00 CET
FEEI web site	22 June, 10.00 CET	24 June, 15.00 CET
FEEI web blog	29 June, 10.00 CET	01 July, 15.00 CET
FEEI database	06 July, 10.00 CET	08 July, 15.00 CET
Personal trainings	By request	By request

Online Communication: Personal online trainings

EnEffect offers to conduct personal trainings on the online communication platforms with the representatives of the NPIs responsible for the ICT capabilities on their request, using the WebEx software, Skype or other communication tools.

**The trainings should be conducted before
15 August 2010**

Milestones Reached

- ✓ **Fully functional FEEI blog**
uploaded on a public web server, tested and launched
- ✓ **On-line Communication Tool
(WebEx Meeting Center)**
selected, tested and approved by PMU
- ✓ **Trainings, seminars & consultations concept**
prepared and approved by PMU

Next Steps

Confirm trainings schedule

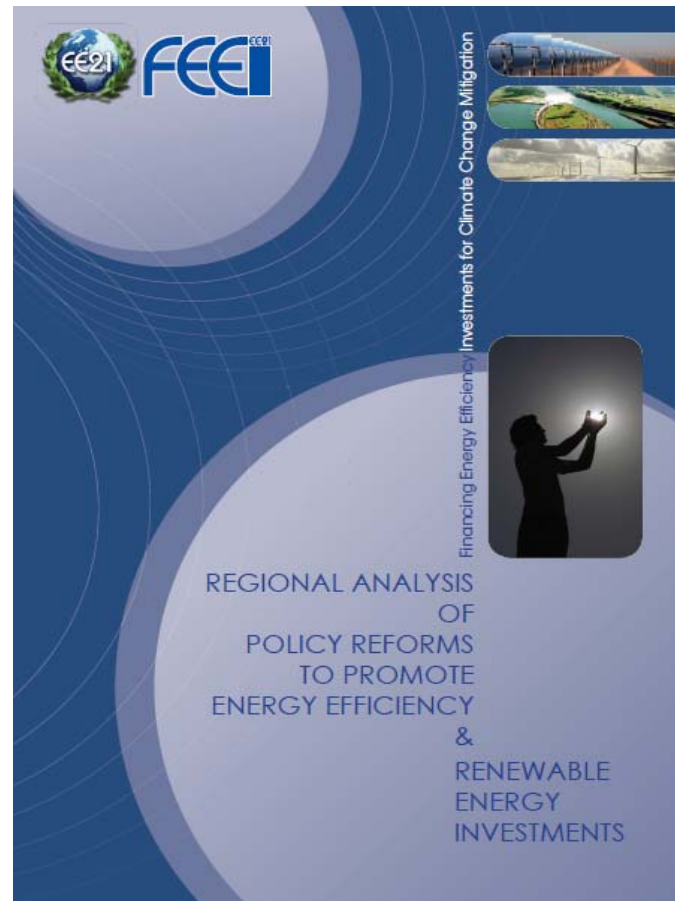

Send invitations
to the assigned representatives of the NPIs

Conduct training sessions

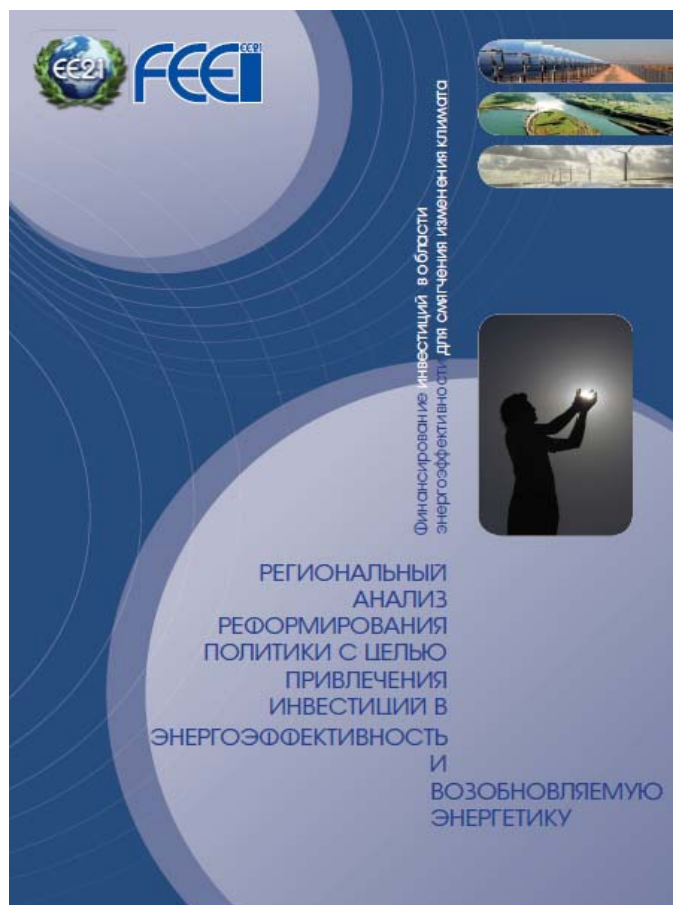

Website and Internet Communication Technologies

Prepare project deliverables for publication
and issue promotional materials for the
project

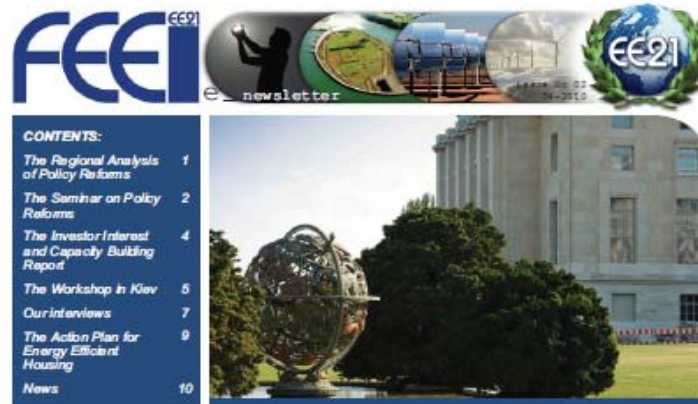

Regional Analysis of Policy Reforms to Promote Energy Efficiency and Renewable Energy Investments

Regional Analysis of Policy Reforms to Promote Energy Efficiency and Renewable Energy Investments (version in Russian)

FEEI Newsletter (second edition)

The Regional Analysis for Policy Reforms

direct contributions from experts which have been collated and consolidated in the final report.

The ultimate objective of the Regional Analysis is the development of a set of recommendations for policy reforms addressed to the attention of national and local policy makers in order to overcome the identified barriers to investments in energy efficiency and renewable energy sources. These recommendations have been developed based on the detailed analysis of the country-specific progress in implementation of policy reforms and market formation and subsequently identified barriers that still need to be overcome, as well as on the results of implementation of the analyzed Case Studies in project countries and in neighbouring countries with similar framework conditions. The Case Studies provide examples of successful implementation, thus indicating ways and means for replication of these success stories in other project countries that face similar barriers. Country-specific recommendations are developed for each project country. However, the following more general recommendations are applicable to all or many project countries:

- Development of policy frameworks.

Clusters of Measures

"Quick Wins" will demonstrate some rapid results and increase political support. These measures can be introduced in less than a year and are likely to produce significant impact at moderate costs.

"Essentials" are the backbone of a comprehensive energy efficiency and renewable energy policy, affecting the areas of greatest potential by raising standards and stimulating investments that are already financially viable.

The Regional Analysis for Policy Reforms to Promote Energy Efficiency and Renewable Energy Investments is conceived as a wide-ranging regional assessment, including case studies, expert workshops and senior policy maker seminars. The main goal of the analysis is to provide recommendations addressed to the policy makers of the participating countries in order to develop and implement policy reforms that will support market formation and foster a favorable climate for investments in the sectors of energy efficiency and renewable energy sources. To achieve this goal, an interactive approach has been applied with active involvement of the designated National Coordinators (NCs) and National Participating Institutions (NPIs) from the project countries and

Milestones Reached

✓ **The Regional Analysis of Policy Reforms to Promote Energy Efficiency and Renewable Energy Investments**

designed and printed in close coordination with PMU

✓ **The Regional Analysis of Policy Reforms to Promote Energy Efficiency and Renewable Energy Investments (version in Russian)**

designed and printed in close coordination with PMU

✓ **Project newsletter**

printed and uploaded at the FEEI site and FEEI web blog

✓ **Design proposals**

for FEEI web site and the regional pages approved and implemented

Next steps

Prepare and publish on-line and off-line
training materials

Prepare for final publication the main
project deliverables

Continue publishing of the
project newsletter
with input from project partners

Anticipating your input,
we thank for your kind attention
